

Dramatic Play Assignment

You are going to plan a dramatic play center that will be safe, enjoyable and educational for toddlers or preschoolers.

1. Choose a theme for your dramatic play center (you may not do a “house” theme since that was the example we used in class.) Write your chosen theme at the top of your page. Options include, but are not limited to:

hospital or medical	vet/animal shelter	pet store
kitchen/restaurant/chef	music/theatre	school
scientist	archeologist/dinosaur dig	artist

grocery store	fire station	hair salon
construction site	space center	camping

Make a list of at least 20 items, with images, you would include in your dramatic play center. Be sure all of the items on your list relate to the theme of your center and are safe and age-appropriate.

2. Present your theme, items and images in a Google Slides presentation, using the template provided.
