## Men Who Are Wusses

version 2.02 ~ Last updated 2/6/25

Why do men who are wusses work so hard to LOOK good to others rather than just do the work to actually BE good?

Have you ever met a wussy man who seemed to think that others thought he was a good husband, a good father, a good man ... when in reality he really didn't fool anyone ... other than himself?

There is a MUCH more comprehensive document that is for wussy men who want to grow and change but maybe don't know how. Click on the following link if you would like access to this document and request it. When requesting it, please provide two references as to two people who would say that you are teachable and really do want to learn. ~ [click here](#) ~

The wussy man will almost always have a #2 World view. He wants to fix everyone else, but himself.

Rumor has it that the first two chapters have only 5 words each. Yepper, that's the rumor. Based on early market research it seems that the \_\_\_\_\_ & \_\_\_\_\_ will need a number of chapters to explain the 5 words. One would think that it's only 5 words and would be pretty straightforward, but nopper, some will need a lot of explanation.

Ok ... we are being flooded by questions from wives, children, parents, family and people who have to deal with wussy men. First off ... if you are the wife or child of a wussy man, we are SO VERY sorry!!! There is hope. As a wife, you'll need to grow to be an even more amazing wife / mother / woman ... because we all know that your wussy husband won't grow. We are sorry, but hopefully the more detailed wussy man document helps. ~ [click here](#) ~

If you're a son of a wussy man, our recommendation is to study your dad and try really hard to find the few good things about him and then study the wussy man part of him even more and do everything you can to not grow up like your dad. There are different spectrums of wussy men but it's not unusual that you can be more of a man than he is by the age of 10 years old. Your mom and sisters will need you though, as your dad is like an alcoholic. Even if he doesn't drink, he's like a non-alcoholic alcoholic. ~ [click here](#) ~

If you're a daughter of a wussy man ... we are so very sorry. Don't even know what to say? Hmmm ... I guess we could give you the advice that we gave your mom and brothers above. Help your mom and your siblings. Work hard not to allow your feelings / emotions or anything to be released with your dad. He can't understand or deal with his own wussy man feelings ... So how in the world is he going to be able to understand and deal with your feelings? Don't grow up to hate him. No one knows why your dad is a wussy man ... maybe he just is? Maybe he was abused as a child and never healed from that? Maybe it's not his choices as to why he has become the wussy "man" that he is. Maybe the full document will help you. ~ [click here](#) ~

Again keep the questions coming in: Email questions to ... [doyouhearmyvoicenow@gmail.com](mailto:doyouhearmyvoicenow@gmail.com) Believe it or not, wussy men tend to love to check in on this document. Not sure entirely why? We're guessing that it's because deep down they know they are a wussy man, just like an alcoholic knows he is an alcoholic. He wants to change ... but he can't.

One good thing that wussy men do is to help people around them grow. If you have to live with a wussy man, well ... maybe it will help to think of him as cow manure? He seems so stupid or willfully ignorant that people have no idea as to what you have to live with. Again, we are so very sorry.

But sending in questions about the wussy man in your life can provide therapy. If there is ANY physical aggression / force / abuse, call the police, get a lawyer, reach out to a trusted adult to help you.

  - Why can't the wussy man see this?
