# Task – 2

1. Which protocols can Oracle Net 11g use? *Confirm* your answer practically.

2. What is your Oracle Net configuration? *Confirm* your answer using SQL*PLUS.

3. Using SQLP*LUS & EM, determines the name and size of **controlfile**, the **online redo log files**, and the **datafiles.**

4. Using SQL*PLUS, create a new tablespace named '**section_6'**, create a segment inside '**section_6'** tablespace, then determine the size of the segment.

5. Using SQL*PLUS, increase tablespace size using two ways.

6. Prove that if '**section_6'** tablespace if read-only or offline you can not modify the content of its segments.

7. Using SQL*PLUS, enables the OMF.

8. Using SQL*PLUS or EM, Show the default values of space warning threshold.
