Key Takeaway

After I commit to a post-secondary pathway, there is still a lot to do. It is important to review my matriculation tasks, so I know which tasks to complete and their deadlines.

Do Now:

Giovanni was an honors student in high school and the captain of the volleyball team. He was accepted into his dream school. He was asked to take a \$5,500 loan and pay \$1,000 out of pocket.

After he graduated from high school, we checked in with him. Giovanni shared that he was not currently enrolled in college.

What do you think might have happened to Giovanni?

PRO-PATHWAY MATRICULATION TASKS

TASK	QUESTIONS I HAVE	MY SUPPORTS
Research your career interests		
Determine preferred program <i>Unsure of what you want to do?</i> Review the pathways: employment, certification, military, or service program		
<i>Interested in the military?</i> Look up your local recruiter's contact information		
<i>Interested in a certification program?</i> Look up costs associated with the program, the program's location, the time commitment and job options after program completion		
Schedule an appointment with a program representative		
Complete the application process for your program		
Submit health forms/working papers, if necessary		
If there are fees associated with your program, determine your budget and payment options
