

## Crafts, Images and Descriptions

### Sea Animal Art Machines

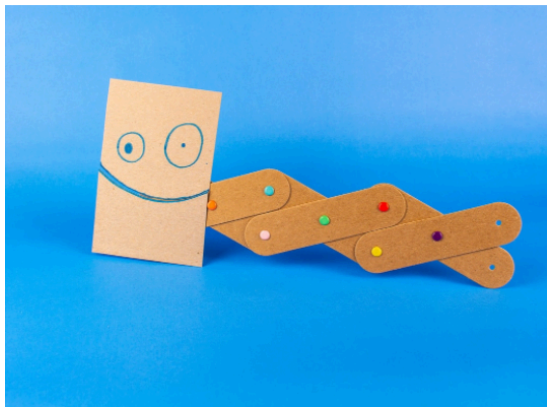

Little Buddies are paired up with and coached by teen Big Buddies for a hands-on building experience! Together they will create a Sea Animal Art Machine (or any animal or creature of your choice) with materials provided to make a sculpture that's designed and built to move! This program is a part of our Service Learning Program for middle and high school students. STEM materials provided by FutureMakers.

#### Grade Levels

PK - 5

#### Materials

One sheet of six sturdy cardboard levers, one packet of eight colorful metal connectors, sheet of sticky foam strips and one chipboard sheet.

## Ocean Story Makers – Crankie Contraptions

Little Buddies are paired up with and coached by teen Big Buddies for a hands-on building experience! Together they will create a story, illustrate it and build a storytelling machine. This program is a part of our Service Learning Program for middle and high school students.

### Grade Levels

K - 5

### Materials

A special fold-up cardboard frame, two paper scroll tubes, one paper scroll, and three adhesive strips.

## Spiral Art Makers – Hypnotizers

Little Buddies are paired up with and coached by teen Big Buddies for a hands-on building experience! Together they will build a spring-driven machine to draw spirals and create rings of glowing light! This program is a part of our Service Learning Program for middle and high school students.

### Grade Levels

K - 8

### Materials

One wind-up mechanism, a two-part cardboard component
