

? Who You Are Now vs Who You Want to Be ?

- Now:
 - Brokie Job
 - Single
 - Debt up to my eyeballs
 - Skinny fat moving towards jacked
- Who You Want to Be:
 - o Business Owner
 - Strong

♦ Your Reason Why ♦

My why is I am broke 7 ways till Sunday. I can write it long or I can write it short and it will still mean the same thing.

Bad shit happened to me. Bad shit happens to everybody.

Some people didn't/don't/won't believe in me, didn't/don't/won't like me didn't/don't/won't/ want to see me win? Fuck them, and if you're one of them, fuck you too.

I've had enough. If it was never my fate or destiny to be rich, fuck those too!

I make shit happen. My why is because I fucking said so.

End day review: 03/11/24

Overall problems/mistakes throughout the day?

• I am more intuitive than formulaic when it comes to anything that requires creativity. This is great for new ideas, but bad for deadlines.

Solutions to each mistake/problem?

- Spend 30 minutes planning projects before starting
 - If more than an hour has passed and the plan is not progressing, change the strategy. While it may make sense to meander to come up with new ideas when the plan is not working, it turns every project into an epic battle, when it just needs to be a minor scuffle.

Looking at the output of my FV, had I settled on the strategy I ended up using right from the beginning, I wouldn't have restarted the project six or seven times. Simplicity is the height of sophistication.

G Work Checklist

☑ Use subconscious mind to update new G program and delete desires for anything that doesn't make me a G.

Day - 03.11.2024

- ✓ Wake up 08h30
- Water 08h35
- Worked on FV 08h50
- Watched PUC 16h00
- ✓ Worked on FV 16h50
- ☑ Sleep 02h50

GWS Reflections:

What tasks/objectives did I demolish?

• Made progress on FV project and brought it to 75% completion

Problems/mistakes encountered?

• The original design plan far exceeded my current skill and resource set

Solutions to each mistake/problem?

• Aim for the simplest tool and the simplest project possible with the highest impact
