

This page just describes old implementation for find-in-page paiting on ellipsis for code review
https://docs.google.com/document/d/1Osd-W9IMxHrrgJ2Kvo7HfpVTms7EDUbOHhsml1c3_Yo

```
<style>
div { text-overflow: ellipsis; }
</style>
<div id="markAllComposition">markAllComposition</div>
<br>
```

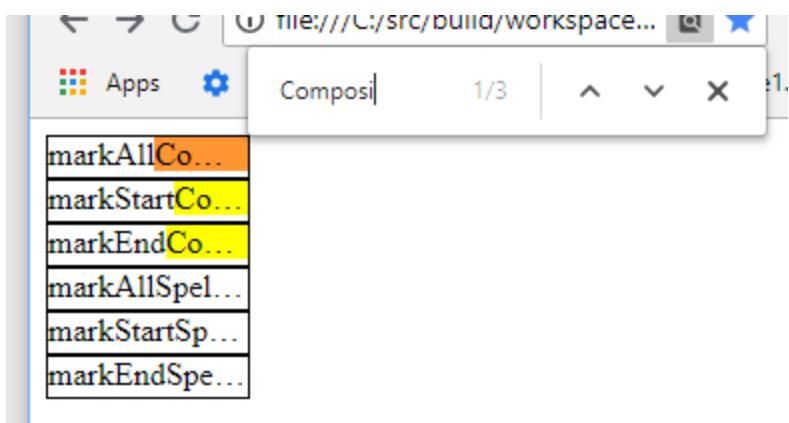

1. Find-in-page “Com” paints half ellipsiss

2. Find-in-page “Comp” paints over ellipsiss

3. Find-in-page “Composi” paints over ellipsiss up to line end.

4. Or you can “find” text hided by ellipsis.
