Dear Parents,

It's that time of the year to start thinking about our annual spring festival. As you know, the school holds the festival for a couple of reasons. The first is to engender a sense of community between the school and the residents of the neighborhood. The second is to help raise money for the school to use in a variety of manners.

This spring, the festival will run from April 3 to 5 (Thursday to Saturday). All of the festival events are going to take place on the school campus. They will primarily be held in the school gym and auditorium as well as on the football field. This year, we have a large number of special activities planned. Please consult the attached sheet to see the events that have been scheduled.

Since we have so many activities planned, we are counting on you, our students' parents, to assist us. We need at least twenty-five volunteers to help out during the festival. If you can spare even one or two hours of your time, we would appreciate it. Please contact Mrs. Voss at 555-1212 if you can lend a helping hand at the festival.

Sincerely,

Jeanie Richards

Headmaster of Milton Academy

Madagascar - When to go

Madagascar has two seasons, a warm, wet season from November to April, and a cooler dry season between May and October. However, different parts of the country have very different weather.

The east coast is hotter and wetter, with up to 4000mm of rainfall per year. In the rainy season, there are strong winds, and **these** can cause a lot of damage. Avoid visiting eastern Madagascar between January and March because the weather can make road travel very difficult. The dry season is cooler and more pleasant.

The summer is usually sunny and dry, but it can be cold, especially in the mornings, with freezing showers, and it may snow in mountain areas above 2,400m, and even stay there for several days.

The west coast is the driest part of the island. Here, the winter months are pleasant with little rain, cooler temperatures and blue skies. The summers can be extremely hot, especially in the southwest. This part of the country is semi-desert, and only gets around 300mm of rain per year.
