Level 3 Teaching & Coaching Ideas/Suggestions: "The Level 3 Teaching & Coaching Financial planning (Activity 6 in 3.0) is something to take seriously! It helped me forecast and tighten up our strategic planning for the next year. Fill out the information truthfully and be sure to ask people for accurate numbers. I think the forecasting helps make the assignment more applicable and like what is done in real operations."

-Jacob Baird, PGA

Level 3 Golf Ops was a breath of fresh air! It was shorter and less in depth. You are on the home stretch! F&B can literally be done in a day! Especially if you get all the interview questions answered and then fill out your reports on it. The test on this side is geared heavy on the golf side. So study up, learn the different practice ways and you'll do great!
