

Self-Training Options

to learn the SPadv (Story Publisher Adv) app

If you want to train yourself how to use the SPadv app, there are several ways you can do that. There are many helpful resources on the [StoryPublisher.website](#) and there are also Help resources within the app.

Here are some self-training options:

1. **Read in-app text Helps.** Go to the Play Store, search for **SPadv**, and install the app on your Android phone. Follow the text instructions. Tap on the 000 Unlocked Demo story to open it and read the HELP documents in each phase. Follow those instructions.
2. **Watch SPadv video Tutorials.** [Link to access numbered tutorial videos](#). These video tutorials are rather short – less than 10 minutes for each video.
3. **Watch live SP zoom training recordings.** These live recordings may be somewhat outdated (e.g. installation has gotten easier), but these training sessions will guide you on how to get started, and how to practice. These videos may be 1+ hour in length. Here is a suggested self-learning path:
