

Assistant Crew Leader (ACL) Pathway

ACL Basics- Leadership/Emergency Response Training

- **ACL Basics**

- Here is the self-led, online portion of the learning modules. While each module was made to be standalone, please follow this order as the concepts connect with each other. The length of time for each video module is provided, however, please note that this might differ depending on learning needs. Resources mentioned in the modules are also listed. These modules must be viewed prior to the single Leadership/Emergency Response training, and both must be completed for certification in Leadership and Emergency Response.

- Risk Mitigation and Response (4 modules)

- [ACL Basics - Risk Mitigation](#) | 9 minutes

- Goal: Understand work party risks and your role in keeping the crew safe.
- [Safety Briefing Checklist](#)
