

Hello YouTubers!

I am Liam and I am also a YouTuber, like you, and I know how hard it is to work with YouTube depending on if you even work hard for your videos. I just want to put down an introduction guide by putting down what is going to happen if you join Codus as a YouTuber. Just to note that I don't want a repeated occurrence of videos on the network, however you can do so if you want, it's optional, and another is that it's voluntary work, you do NOT get paid for this, however you do get rewards.

Okay, so this is what I want from a basic YouTuber:

- Fresh videos
- Good art, such as the logo, and channel banner {thumbnails are optional but also preferred}
- Good editing techniques
- Making the network look good, obviously, as hard as you can, it would be greatful.
- Any other things such as subscribers, viewcounts, even age does not matter to at least me, just as long as you help the advertisement flow.

So, what do I get from being a YouTuber?

As said, I cannot pay you, however we offer the second cheapest donation rank which is in progress, with extra command such as /fly and /feed. Although they need to be discussed more.

Another note:

Codus prison (our only server so far) as of 28/04/2015 (28th of April 2015), we're 4 days old and still in progress. We need you to be patient if you have not gotten your commands and to be able to report to us if something else is wrong.

If you want to contact me on Skype, go ahead @ "ElectricMusique"

Also, I forgot to note, please tell me your Username if you either came from Skype or from Twitter.

Kind regards,

Liam/Codus Owner/Director

More notes: I am also sorry if I accidently sent you this link before asking "Would you be able to record on my network {if you want to of course}?", so I majorly apologize if this was either weird to you or just completely random.

Thanks ahead for looking anyway and I hope you're interested in Codus.
