

VinSocial.vin – Getting Started Guide

What is VinSocial.vin?

VinSocial.vin is a **decentralized, censorship-resistant social network** — built entirely on-chain.

No emails. No central servers. No data tracking.

You truly **own your identity and posts** — forever.

No Wallet? You Can Still Browse

You can:

- Read public posts
- View user profiles

 But to **post, like, comment, or follow**, you need to **connect a wallet and register**.

Step 1: Set Up & Connect MetaMask

MetaMask is the most popular Web3 wallet — and **the best choice for desktop users**.

Add VIC Network to MetaMask:

Open MetaMask → Click **Add Network** → **Add a network manually**, then enter:

- **Network Name:** VIC
- **RPC URL:** <https://rpc.viction.xyz>
- **Chain ID:** 88
- **Currency Symbol:** VIC
- **Block Explorer URL:** <https://www.vicscan.xyz>

Connect Your Wallet:

- Go to <https://VinSocial.vin>
- Click **Connect Wallet**
- Choose MetaMask → Approve → You're in!

Step 2: Register Your Account (One-Time Only)

To unlock full features, register once:

1. Click **Register** on the homepage
2. Enter your display name, short bio, and optional image URL
3. Pay a one-time fee: **0.001 VIN**
4.  Done — you're permanently registered on-chain

Step 3: Start Posting

Once registered, you can:

-  Post content, thoughts, links, images/videos
-  Like posts
-  Leave public comments
-  Share posts
-  Follow/unfollow other users

 **Each action costs a tiny gas fee** (~0.000029 VIC) — cheap, and helps prevent spam.

Media Support: Add Images, Videos, or Files
