Proposed Participation of Crust Network in The Mak @100 Blockchain Exposition.

Let me first take keen note of the improved OCP adjustments, especially Subsquare, which I believe will make it easier for more community members to participate. This is a curated proposal for participation in The Makerere University @100 Celebrations, Blockchain expo, dubbed Mak @100 Blochain Exposition. This follows a number of Science and Technology events around the country, the most recent being the National Science Week where the National Ministry of Science showed extreme interest in Blockchain through their formal invitation of Blockchain Association Of Uganda to the event 📄 Blockchain Association of Uganda (1) .

From 31st Nov to 2nd Dec, there will be a Blockchain exposition organized by Blockchain Club of Uganda, an affiliate of the Blockchain Association of Uganda. This event is to commemorate Makerere University's 100 years of existence, in particular its contribution toward technology and innovation.

The event will last for three days where students will showcase some of the products they have so far built on the different chains. New ideas will also be illustrated.

Issues surrounding blockchain such as crypto regulation shall also shape discussions of the event. New opportunities in blockchain shall be discussed And many more.

There will be an expected turn up of students 250-300 from different schools within university as well as other public universities especially through University blockchain clubs. These will comprise developers, crypto gurus, Artists, Blockchain enthusiasts, NFT creators, Newbies, Experienced Web3 users, Fitechs and many more.

"This proposal is to have a Crust Network Booth at the event"

Crust booth.
There will be a Crust Network Event booth.
We share ideas, elaborate discussions & engage with the community through the event.
Sharing on the Crust network upcoming new developments,opportunities(OCP),and many more
Booth Visitors will also be encouraged to follow all Crust official platforms(discord, tg, twitter) and how to rise through the ranks;- Guest, Member, Ambassador, Council.
Some swag(t-shirts, caps & stickers) will be available to reward active participants throughout the sessions, best questions and first few people to follow and join Crust.
