

Hi, Muhammad Asif here
My blog www.wbupdates.com

ARticle source;
<http://www.wbupdates.com/2013/01/Relinking-keyword-automatically-receiving-link.html>

```
<b:if cond='data:blog.url != data:blog.homepageUrl'> <script type='text/javascript'>
function autoLink () {
    this.keywdHref = new Object ();
    this.add = function (keyword, href) {
        if (keyword.substr (0,1)! = "") {keyword = "" + keyword;}
        this.keywdHref [Keyword] = href;
    }
    this.createAnchor = function () {
        var objs = document.getElementsByTagName ("div");
        for (var i = 0; i <objs.length; i + +) {
            var obj = objs [i];
            if (obj.className.indexOf ("post-body")> -1) {
                var content = obj.innerHTML;
                for (var keyword in this.keywdHref) {
                    var href = this.keywdHref [keyword];
                    var newstr = content.replace (keyword, "<a href='"+href+"'>" + keyword + "</ a>", "
gi ");
                    obj.innerHTML = newstr;
                    content = newstr;
                }
            }
        }
    }
    this.startScript = function () {
        var onLoad = window.onload;
        window.onload = function () {
            if (onLoad) {onLoad ();}
            setTimeout ("f.createAnchor ()", 100);
        }
    }
}
</ Script>
<script type='text/javascript'>
