Subject: #1 constipation killer
Subject: Safest and fastest digestive problem cure
Subject: Japanese herb for smooth digestion?

Dear {!firstname_fix},

The people in Japan have no constipation even though they eat the same as us.

This is because of a 400 year old herb they constantly consume.

This herb eliminates chronic bloating, gas, constipation, diarrhea, and stomach cramps.

It gives a second chance at a pain-free, problem free digestive system for life.

And it's safer and much better than laxative.

Millions of people have been using it, and the results are a miracle.

Constipation… CURED.

Irritable Bowel Syndrome... ELIMINATED.

Belly Fat ... GONE.

Could this finally be the safest and fastest cure for digestive problems you've been looking for?

Go here to find out.

Subject: 10-second ritual eases constipation, bloating and gas
Subject: Ultimate gut relief?
Subject: Kills constipation, bloating and gas

{!firstname_fix},

Adding this simple 10-second ritual to your breakfast can help remove your constipation, bloating and gas issues.

Plus, it actually helps remove 5 to 20 lbs of old decayed food that's stuck inside your colon walls.

And it doesn't involve probiotics, digestive enzymes or laxatives…

Instead, it's a Japanese tea secret that's been used for over 400 years by countless people to ease digestive issues…

…including your constipation, gas, bloating, and irritable bowel symptoms.

The best part is, you don't actually have to drink any tea in this 10-second ritual.

Because they took the 4 key herbs from the tea…

…and distilled them down into a concentrated liquid form.

So all you have to do is drip a few drops into your mouth or favorite morning beverage.

Just a fair warning though…

You may find yourself shedding a bunch of flab as a side effect:

"I was super skeptical that this would work at first. In fact, I almost didn't order it. That's because I tried many products over the years and was always disappointed. But this "Jap tea secret" does work and works great as the nutrients build up in me.. and it just gets better as the days go by. I couldn't be happier. I'm regular now, have much more energy and I've shed 27 lbs."

Rebecca – Dallas, TX

Eliminate your constipation and bloating now.

Subject: Restore your gut health with this garnish?
Subject: Sooth your gut with this garnish
Subject: 400 year-old “gut soother”

{!firstname_fix},

Did you know that old people in Japan have one of the healthiest digestive systems?

It’s not because they consume high-fiber or less dairy.

If anything, it’s quite the opposite -- they LOVE dairy products.

So what’s the secret?

It’s because this 400 year-old “gut soother” is a staple in their daily routine.

This “gut soother” dramatically reduces the swelling of one’s gut…

The kind of swelling that makes it nearly impossible for food to move through your colon and out as poop -- making your digestion more challenging over time.

Definitely 100x more helpful than anything you can find in a drugstore.

Watch this short presentation so you can use this concoction for yourself.

Subject: Uncensored TRUTH about your gut
Subject: Is this the source of your gut problems?

{!firstname_fix},

Leading health researchers have found the reason why most people experience digestive problems.

And get this...

It has nothing to do with the amount of good bacteria or high-fiber content in your diet.

Which is why no matter how much you take care of your gut, the pain, bloating, gas, fatigue and painful pooping only gets worse and worse.

Fortunately, a new study has come to light that could not only help "turn down" these symptoms…

But actually fix the root cause of these issues once and for all.

Health researchers call it 'nature's digestion miracle'.

It’s a simple, natural, no side-effect solution that allows you to digest nutrients quicker and prevent food piling up in your gut with nowhere to go.

This helps relieve some of the most common complaints with digestion -- gas, bloating, poop problems... and even weight loss.

This video reveals how you can quickly calm your gut and give it a new life.

Subject: SHOCKING! Common ‘health’ food linked to gut problems
Subject: How to treat your gut like a king!

{!firstname_fix},

Let’s see how much you know about your gut.

Try to guess which one makes it hard for your digestive system to break down food better, causes indigestion, and makes constipation worse:

(Clue: It's not what you think and most people get this wrong)

Many doctors have even warned of its overuse as prolonged usage will make your body 'forget' how to push the stool out on its own.

Click here to find out what the correct answer is.
