* Queue name Small Table

* Applicable stores MXIPOS COFFEE SHOP

* Queue Number Prefix A

* People Settings 1 - 4

* Queue Starting Number 1

* Average duration 5 Minute

* Support Online Queue Number Collection ☒

* Online Queue Missed Number Description If your number was called and wasn't able to show, you have to get another number. Thank you and Have a Great Day!

Confirm Cancel

Queue Names: Can be such as "small table", "medium table", "large table". It can be at your own discretion.

Applicable stores: Stores that require queuing function.

Queue Number Prefix: Select A-Z English capital letters from the drop-down menu.

People Settings: The minimum and maximum number of people that the queue table can accommodate, such as 1-4 people at a small table.

Queue Starting Number: refers to the initial number of the call, such as the prefix A of the queue number, the initial number 1, and the display A1 on the printed call list.

Average Duration (minutes): It is the initial queue duration (estimated based on experience), and when there are more queue records, the average queue duration will be automatically calculated based on previous queue times.

Edit Queue Configuration

Modify Queue Configuration

The screenshot displays the Merchant Management Platform interface. A modal dialog titled "Edit Queue Configuration" is centered on the screen. The dialog contains the following fields:

- Queue name: Small Table
- Applicable stores: MXIPOS COFFEE SHOP
- Queue Number Prefix: A
- People Settings: 1 - 4
- Queue Starting Number: 1
- Average duration (minutes): 5
- Support Online Queue Number Collection: ☐

At the bottom of the dialog are "Confirm" and "Cancel" buttons. In the background, a table lists queue configurations. The "Edit" button for the first row is highlighted with a red box, and a red arrow points from it to the dialog box.

Queue name	Store Name	Average duration (minutes)	Support Online Queue Number Collection	Action
Small Table	MXIPOS COFFEE SHOP	5	No	Edit
Medium Table	MXIPOS COFFEE SHOP	5	No	Edit
Large Table	MXIPOS COFFEE SHOP	5	No	Edit

MxiQueue APP

After the completion of the new queue configuration in the store, all POS machines in the LianDi series (such as A7, A8, etc.), SunMi POS (V2, V2S) application markets, and Android mobile devices can install the Queue Treasure APP (app name: Queue Treasure). Login to the store administrator account or cashier account to operate the number retrieval, calling, dining, passing, cancellation, one click clearing, etc

MxiQueue APP Log In Page

The screenshot shows the login interface of the MxiQueue APP. At the top, there is a blue status bar with the time 10:11 and various system icons. The main background is a gradient of blue and purple. A white login form is centered on the screen. It contains three input fields: 'Please enter your username.', 'Please enter your password.', and 'Verification code'. To the right of the verification code field is a small graphic of the number '7094' with colorful dots. Below the input fields is a checkbox labeled 'Remember the password' which is checked. At the bottom of the form is a blue button labeled 'LOG IN'. At the very bottom of the screen, the version number 'V1.1.5' is displayed.
