Background

In early 2025, the Alliance of Nurses for Healthy Environments (ANHE) will be hosting a series of training sessions focused on how major pieces of climate legislation are providing significant funding to protect health and address climate change. The series aims to underscore the importance of preserving climate investments and the Inflation Reduction Act (IRA), along with how these funds are being utilized on the ground to promote public health in a variety of contexts. These trainings are free and we encourage you to share widely with your memberships.

Event Descriptions

Webinar 1– Title: Health Impacts of Federal Climate Investments

Date/Time: Wednesday, January 22 at 3PM ET

Description: The Bipartisan Infrastructure Law and Inflation Reduction Act (IRA) together represent the largest investment in climate resilience in the nation's history and are providing much-needed resources to communities across the country. The IRA alone delivers nearly \$400 billion in federal investments to rapidly accelerate the transition toward zero-emission vehicles, reduce climate pollution and carbon emissions, improve air quality, and strengthen communities. These historic investments present an opportunity to make lasting, positive health outcomes for all Americans. Join

the Alliance of Nurses for Healthy Environments on January 22nd at 3 pm ET for a virtual event featuring speakers providing an overview of how climate investments improve health outcomes, examples of local benefits to communities, and opportunities for nurses to promote implementation at a state and local level. This course is approved by the California Board of Registered Nurses, Provider Number CEP17198 for 1 contact hour.

Speakers include:

- **Aaron Petykowski**, Senior Program Manager, Climate Action Campaign
- **Robbie Orvis**, Senior Director, Modeling and Analysis, Energy Innovation
- **Stefen Samarripas**, Senior Local Policy Manager, ACEEE

Webinar 2– Title: Schools, Health Systems, and the Inflation Reduction Act

Date/Time: Wednesday, February 5th at 3PM ET

Description: Historic investments made possible through the Bipartisan Infrastructure Law and Inflation Reduction Act (IRA), present an opportunity to make lasting, positive health outcomes for all Americans. The Inflation Reduction Act offers incentives for businesses, school districts, governments, and health systems to transition to zero-emission vehicles and renewable energy. Join the Alliance of Nurses for Healthy Environments on February 5th at 3 pm ET for a virtual event in which speakers will provide examples of programs implemented through IRA funding, specifically relating to electric school buses and clean energy programs in health systems. This course is approved by the California Board of Registered Nurses, Provider Number CEP17198 for 1 contact hour.

Speakers include:

- **Carolina Chacon**, Coalition Manager, Alliance for Electric Schools Buses
- **Kindra Weid**, RN, St. Joseph Mercy Health Chelsea. Coalition Coordinator, It's Electric!

- **Dennis Walto**, MA, Chief External Affairs Officer, Chiricahua Community Health Centers, Inc.
