EMCC GLOBAL ACCREDITATION POLICY NOTE: Reflective Practice and Dynamic Inquiry

*The EMCC Global Frameworks for Accreditation **including Capability Indicators** to support EMCC Global Professional Designation/s are not intended to be used in a critical, evaluative tick-box manner; they are also not a checklist or a set of expectations or prescriptive actions that must be taken before moving to the next 'level'.*

*Instead, they are a set of **reference points to naturally consider, think about, reflect on and practice** in relation to the context in which the individual or team is working. The objective in using the EMCC Global Framework Guides, is to **encourage dialogue, reflective practice, and learning** between all users of the EMCC Global Frameworks, and the frameworks themselves, in order **to enhance and enrich professional practice and to recognise and value prior learning and experience.***
