youtube unsolved drama.

introduction

this google doc was made to document most of the drama that has occurred in the youtube unsolved discord server, a server dedicated to the youtube series "youtube unsolved" by thetekkitrealm. it'll possibly be long as fuck, and uh, terrifying to read.

you have been warned.

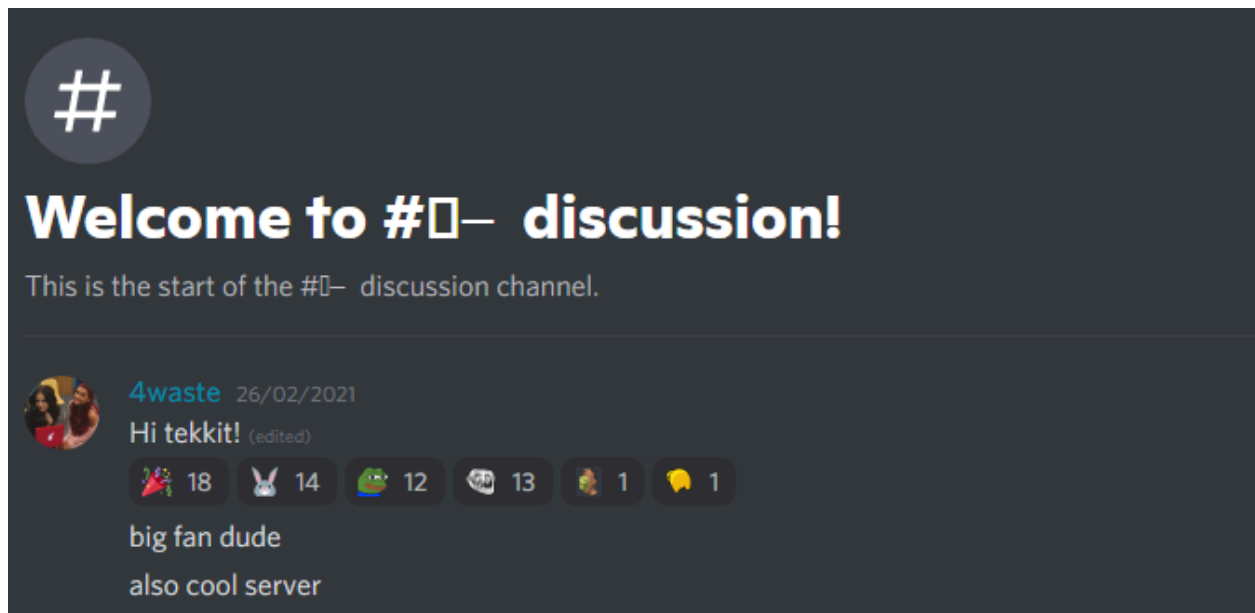

omg youtube unsolved scary xdx dx!!!!!!!1

note: it's a work-in-progress and i work on it when i feel like it.

Table Of Contents

Creation

The Youtube Unsolved server was created on 25th February, 2021, and opened to the public on 26th February, 2021. The first member to join and send a message was 4waste. His message was-

Revolutionary, and a new beginning.

There used to be 2 older TheTekkitRealm servers. The author of this document currently does not have information about the first TekkitRealm server, however the second TekkitRealm server

was known as TheTekkitServer and many of the members originated from there. They are known as OGs.

The OGs are RC, Fives, Armenat, Sabyko, Trop, itamar190, It's Just ViNi, Anatasia, Caillou Perks and Epileum as of 30th August, 2021. They have a role created for just them because they are poggers.

The old server had a lot of drama going on, so it was deleted. This new server was created later on to replace it, but who'd know how much drama *this* one would bear?

For the first 2 or so months after the Youtube Unsolved server's creation, it was mostly drama-free; there were only a couple of mods, and it didn't need much moderating either way. It was all fun and games.

Wumpus, Insane James, Flame-Tuns, Krypt Explorer, Adoman, Lycan, and AddySays entered the scene. They were the people most active in the beginning of the server, if there was anyone else I might have missed 'em.

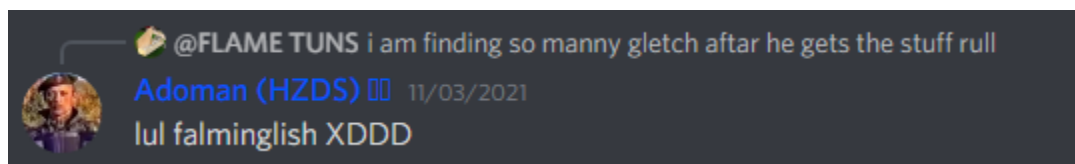

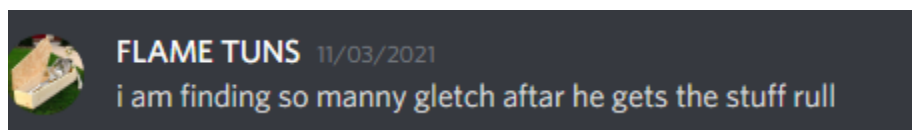

Some of the drama centers around them. Sus.

Anyways,

Wumpus was a very active member of the server who wanted to achieve rank 1 in Mee6 and be the first Mystery Crusader. He was usually the first person to reach the levelling roles. He also *did* get the achievement of being the very first Mystery Crusader and he upheld his rank 1 status for a long time. Wumpus was also the first non-OG staff member.

Krypt Explorer was the bot developer of the bot Youtube Unsolved, which was mainly meant to be used for submitting mysteries to the #featured-board channel. It also had a currency system similar to Dank Memer, with the currency being common, rare and epic mysteries, but that's not the point here. This bot, was later used in some staff drama. Krypt is also Hungarian.

Flametuns was a person who was terrible at spelling and grammar. Here are some glorious examples.

I mean, sure.

yeas for a sele reason

haha funni right??? xdx added

Anyways, I might include other old active members' descriptions and crap here later. Feel free to suggest some funnies.

Wumpus

The first drama I'll be covering is Wumpus, because he wanted to be first in everything, so why not the first drama-causer in this doc?

Wumpus was the first non-OG staff member in the Unsolved server, and the first Mystery Crusader. He was also quite active.

He misused his mod permissions by mass-pinging and banning anyone who asked why he pinged, and he was overall toxic to members. He also advertised his server in DMs to server members.

The last straw was when he DM-advertised while being temp-muted, which got him banned.

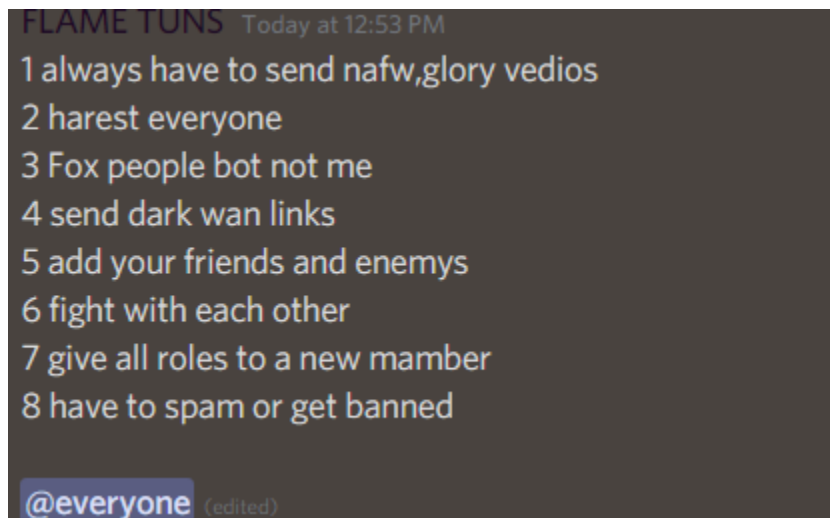

He deleted his account later.

Flame Tuns and Dipanshu

triggers: cp

The author is uncertain if this drama occurred around the same time as the Wumpus drama.

Flame Tuns was another active member in the Unsolved server, and he created a server where people could send vulgar things, and he advertised this server aswell.

^ These were the “rules” there.

Another member known as Dipanshu joined that server, and as they were allowed to send vulgar things, Dipanshu sent child porn in there. Flame Tuns did not do anything about it.

Flame Tuns ended up inviting a staff member to his server, and that staff member found the things that Dipanshu posted. Dipanshu ended up being banned from the Unsolved server.

Flame Tuns was also banned for DM advertising, and returned on an alt, and has been permanently banned from the server for ban evasion since.

Hayden

triggers: gore, nsfw, sexual assault

Hayden was a member of the Unsolved server who did awful things to people.

There used to be a #nsfw-mysteries channel. Hayden would lure people in there and do gore and nsfw roleplays. He committed cyber-sexual assault and his main victim was Tobit.

He also caused around 8 people to get warned for engaging in NSFW roleplay with him, despite him being the one who lured them in.

He was banned.

RC

tw: n slur

There was a period of time where RC was quite toxic. He called a staff member, Krypt Explorer's gore artwork weird, which sort of offended him and the conversation got so heated that the server had to be locked for some time for everyone to cool off.

He also insulted a few members and called a member the r slur. It is unclear if he was punished for these things.

RC also constantly used the N slur and said that it was "just the dude term"

RC 05/20/2021

What's goin on?

Why'd u unfriend me

Damn

That's how u treat me

Goodnight then

And he has also used it in the server, unpunished.

RC also told Callimarie, a former admin to go die.

RC 04/08/2021

Calli can die

UPDATE- 8th September 2021

RC called people in the Hoodie Gang 4.20 nasty and then blocked everyone and left!!!!!!!!!!!!!!

Krypt

This part is mostly centered around the staff team of the Unsolved server.

Anyways

After Wumpus was gone, Krypt created new sanctions in the #sanctions channel. These sanctions were in effect for around a month.

These sanctions led to a lot of people being banned for “freeloading”, as it wasn’t specified what exactly counted as freeloading. Other offenses were also not specified that well.

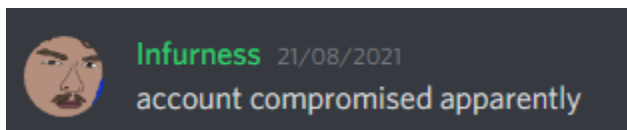

There was a lot of discourse on the moderator team, and in the end it got so escalated that Krypt Explorer was banned, who then used his bot to ban the staff member who banned him, so the bot was banned as well.

Krypt has returned to the server one more time since then, when he did, he received admin in the server while Dallas was supposedly being hacked (more on that later).

Dallas Hax

Dallas got hacked in around mid-August, or supposedly. He unbanned a predator who was formerly mod, banned Fives, and gave Krypt admin. This made the server very angry.

A while later, he claimed that his account was compromised-

Some people in the server believe that this was not the case, and Dallas simply made up an excuse for something he regretted doing.

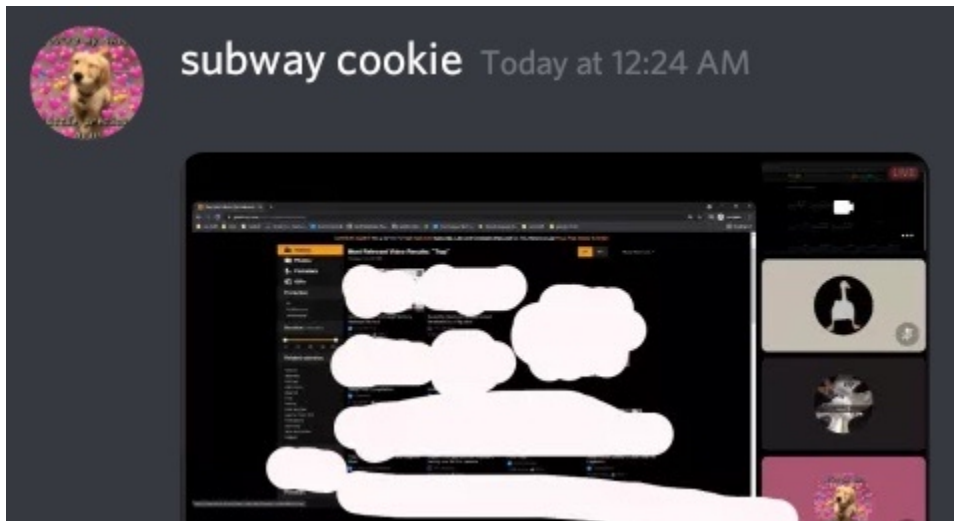

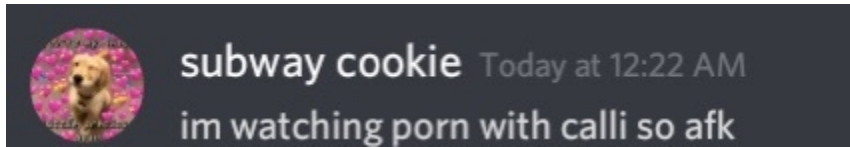

Allie

triggers: nsfw, pedophilia

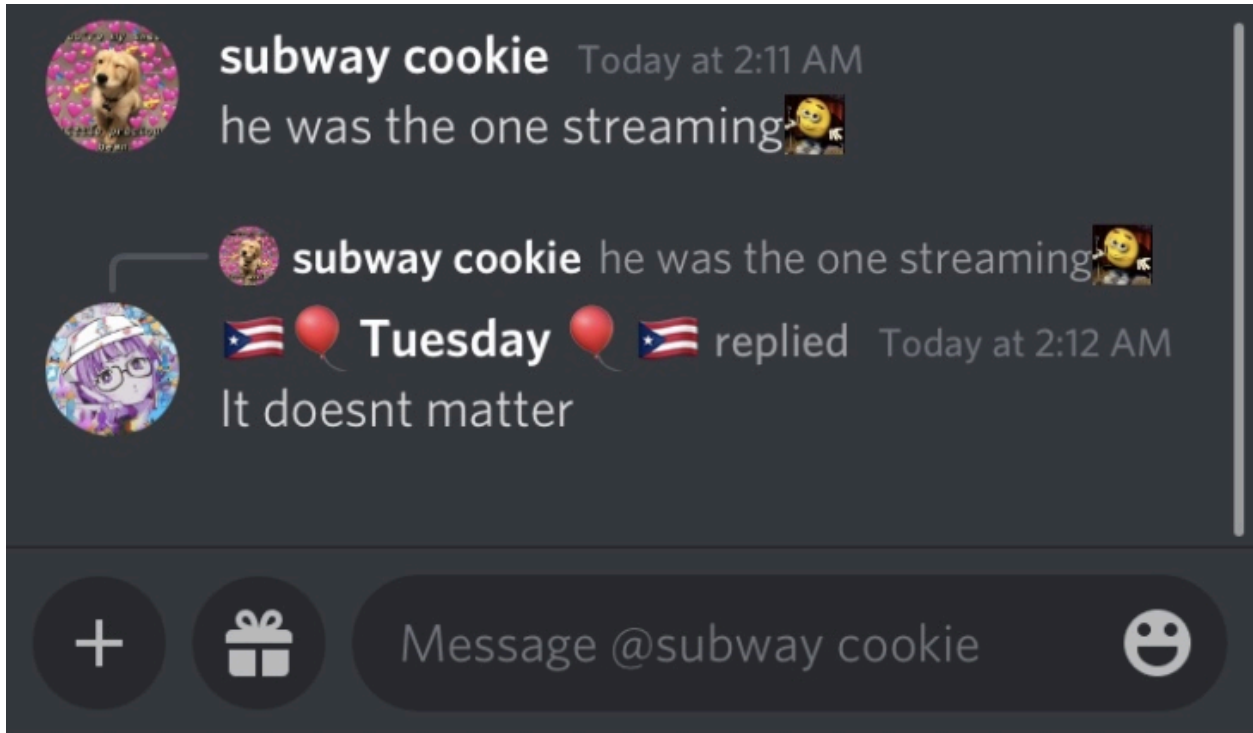

Allie was a former mod in the Unsolved server who displayed predatory behaviour.

They watched trap porn with a 12 year old, known as Callimarie, in his server. Allie was 16 at that time, almost an adult while Callimarie was 12, not even a teenager.

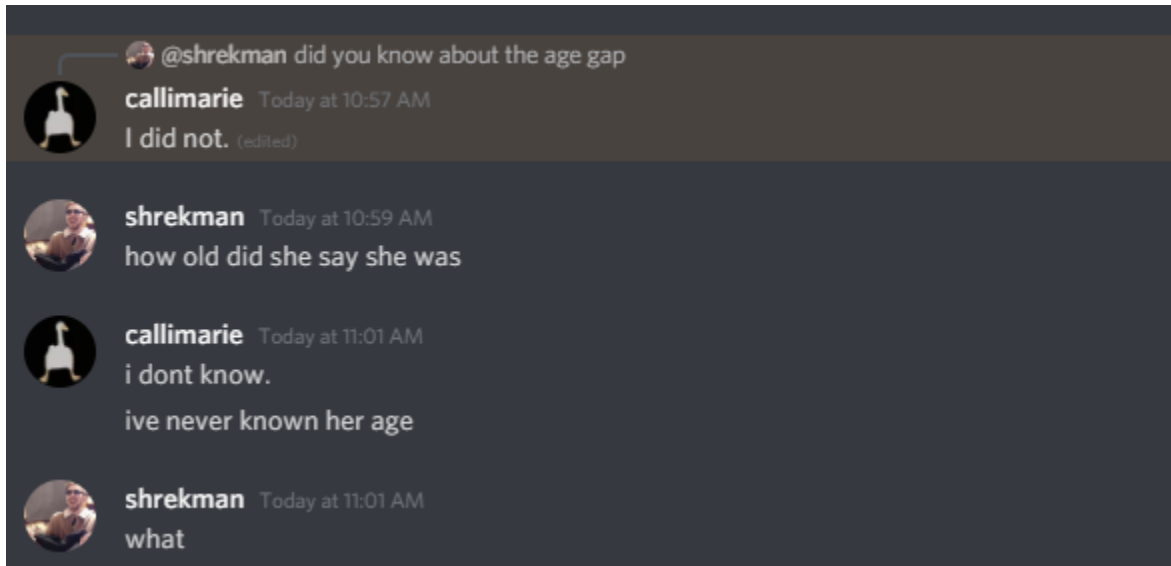

She sent a message admitting to watching porn with Calli and also one with a screenshot of her watching it.

Allie tried multiple times to weasel her way out of it.

Calli was also not aware of Allie's age, as seen in this screenshot-

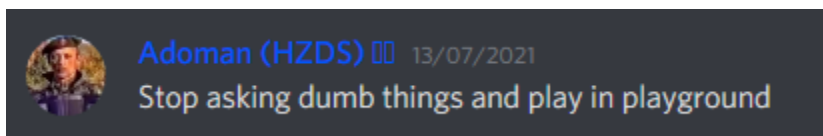

Allie was quickly banned for it.

Unsolved Server Fight #cyberbully

Adoman claimed that he was a white hat hacker, and that he stole back 4 bitcoins from a group of hackers he was hunting down who stole 11 bitcoins from him.

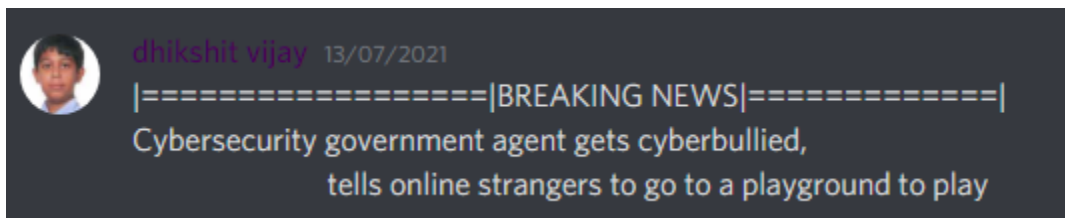

His amount of BTC kept changing like 2902392093023920 times, and he kept claiming he was a white-hat even though he hacked to get back his BTC.

At one point he said this iconic little thing-

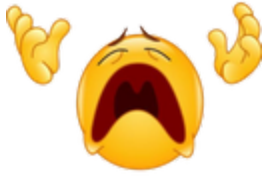

<https://discord.com/channels/814362659776233483/814362660622958644/864397982316757012>

And well,

funny asf no shit

Anyways, Adoman was warned for bullshitting rip

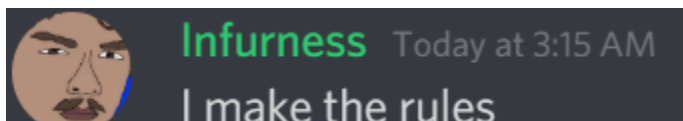

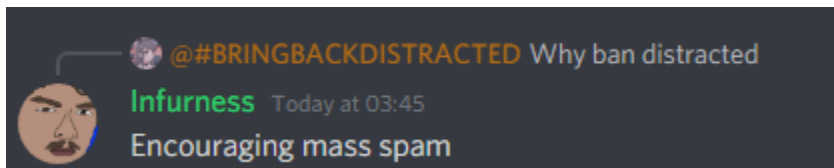

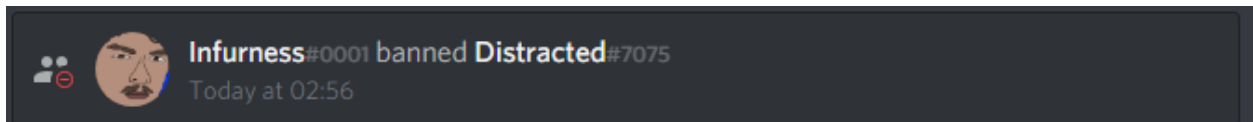

Dallas gets Pissed #distractedban

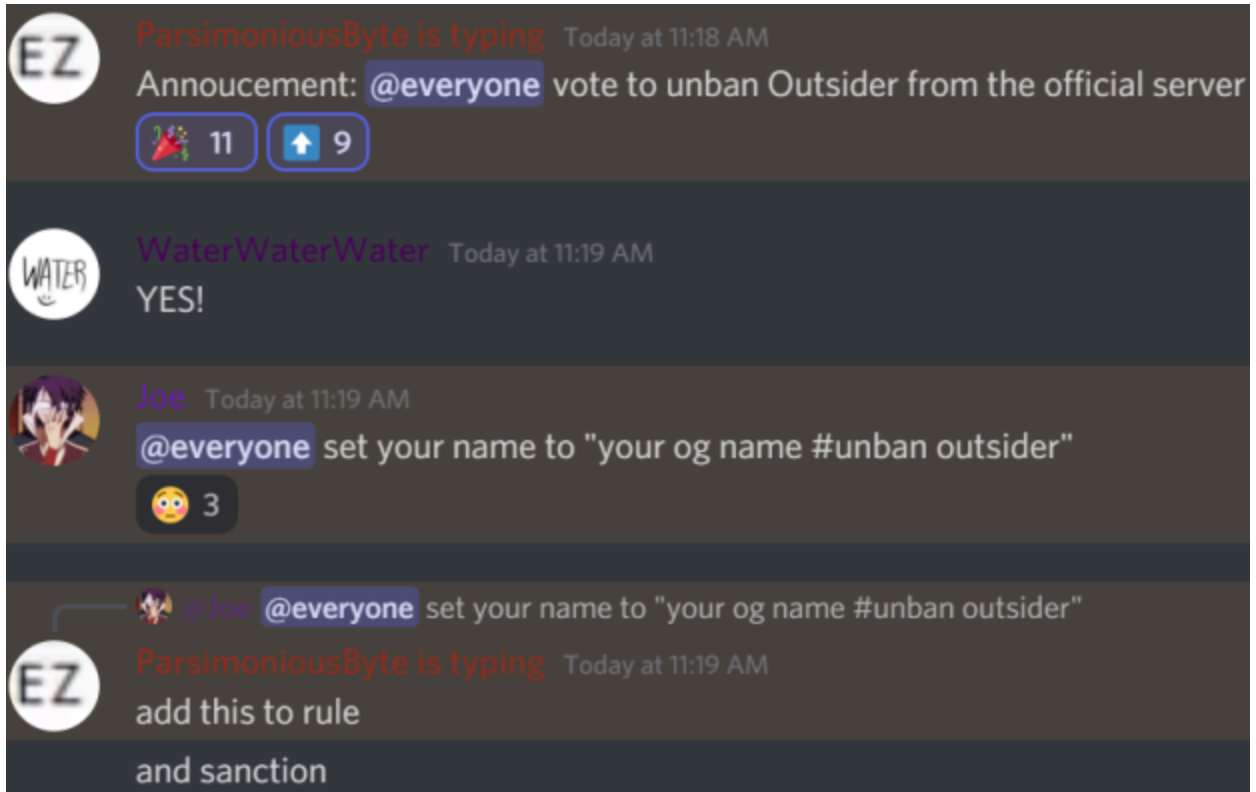

On 31st August, Dallas was spam-pinged 114 times by a ban speedrunner who was not banned by mods cause they weren't doing their job!!! xddd

Later, Dallas locked the channel out of literally nowhere, and banned the speedrunner himself. Then, Distracted stated that "Dallas likes pings" and then he banned him for "encouraging spam pings"

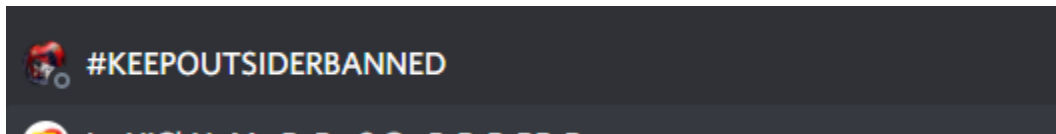

This has aroused a bit of a conflict in the server. Majority of the members are against Distracted's ban.

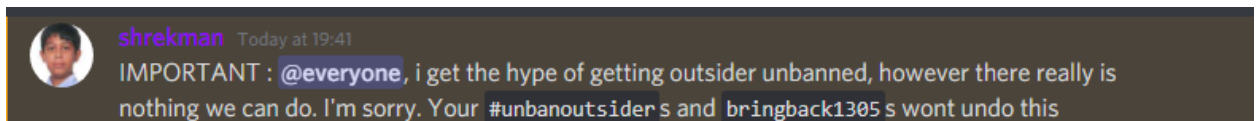

Personally, I feel like Dallas is acting rather suspicious. Just like back when he unbanned Allie and gave Krypt admin.

RC did a RC moment for it aswell!

However, later an admin stated-

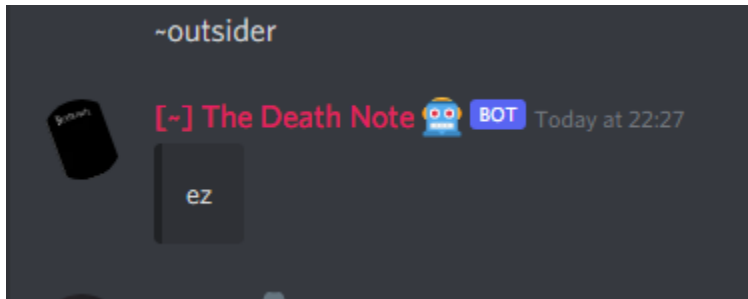

some of us still have hope though.

:(

Outsider comes back to save the day!!!!!! He used an alt to rejoin :trolling:
But alt got banne :pensive: it was still fun tho yay hoooryahahuy293hoh43iuh3!!!!!!!!!!!!!!

edit 19 jan 2022: i dont know why im bothering with this anymore but like

Literally fucking hell.

The mods were pinged 2903801920192019201920129 times but they were unfortunately busy with other things...

These raiders also ended up spam-pinging Dallas, which is probably going to make the Dallas-being-sus situation worse.

Image on the next page because google docs is stupid

It went on for around 10 minutes (?) and they were continuously doing it despite being told to stop.

They were later muted by Shrekman. BIG ASS SHOUTOUT. POG!!!!!!!!!!!!!!!!!!!!!!

cleangauntlet ban

Kushal was banned from the unsolved server

It was quite uneventful.

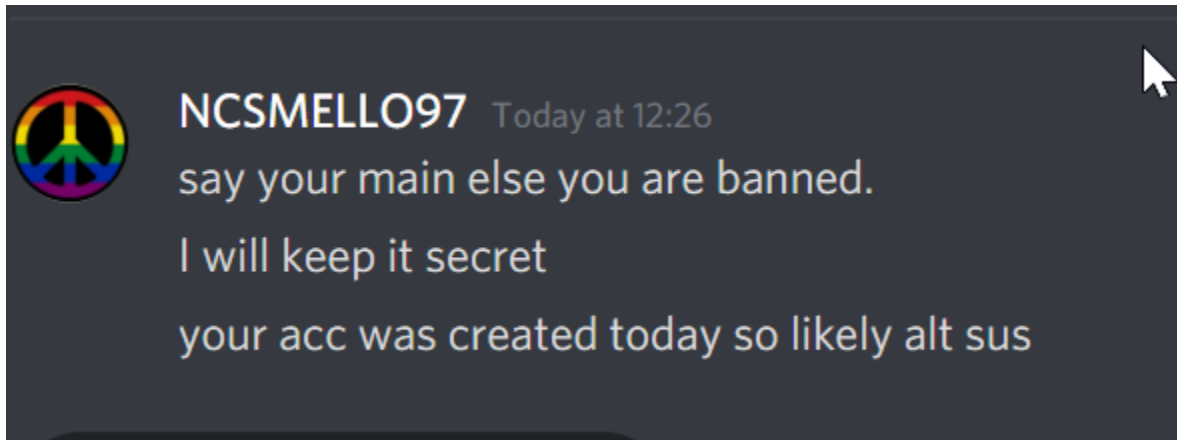

nggyu moment

Ok so

NGGYU, also known as NCSMello, or just Mello, was an active member in the Youtube Unsolved server. Dallas had opened some really shitty mod applications, and he was promoted out of literally nowhere.

He was being pretty toxic as a mod, as even a ping bothered him.

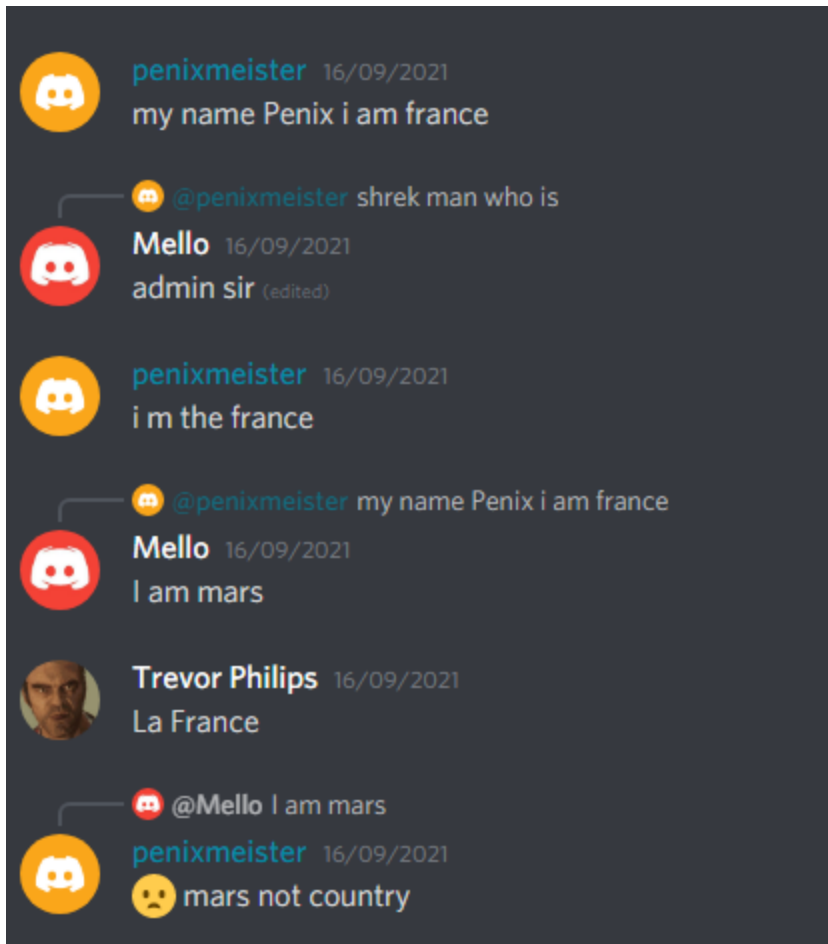

Then he threatened someone with a ban if they didn't reveal whose alternate account they were.

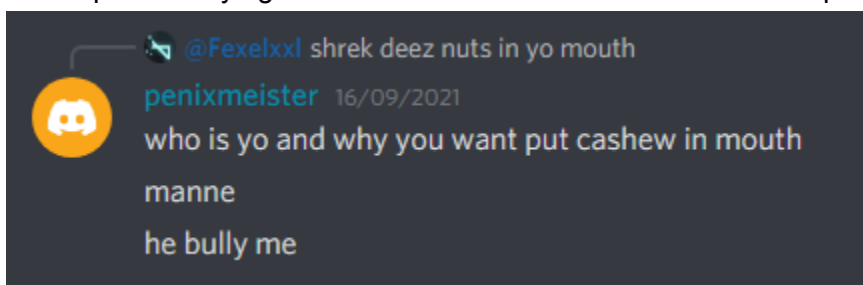

His excuse was that he didn't know such things would count as threats, and that he "did it for the server" as a ban evader was on the loose at that time. However, there are better ways to deal with the situation rather than threatening, so Mello is in the wrong here, and that counts as mod abuse since he threatened with a *ban*, a mod permission.

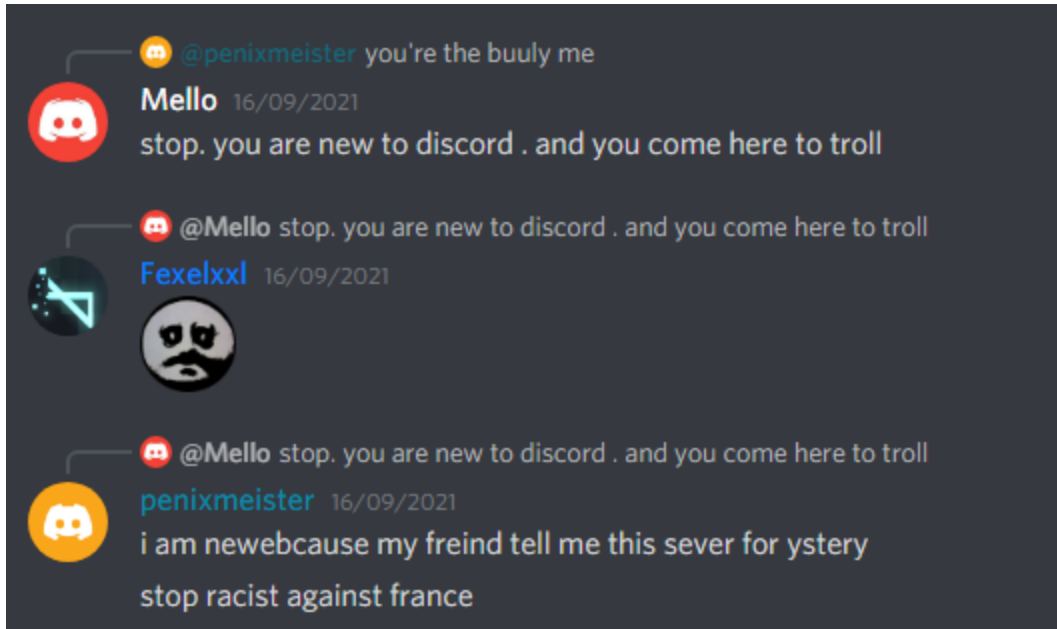

Later the same day this occurred, a member who went by “penixmeister” or Jacque Penixxe joined the server.

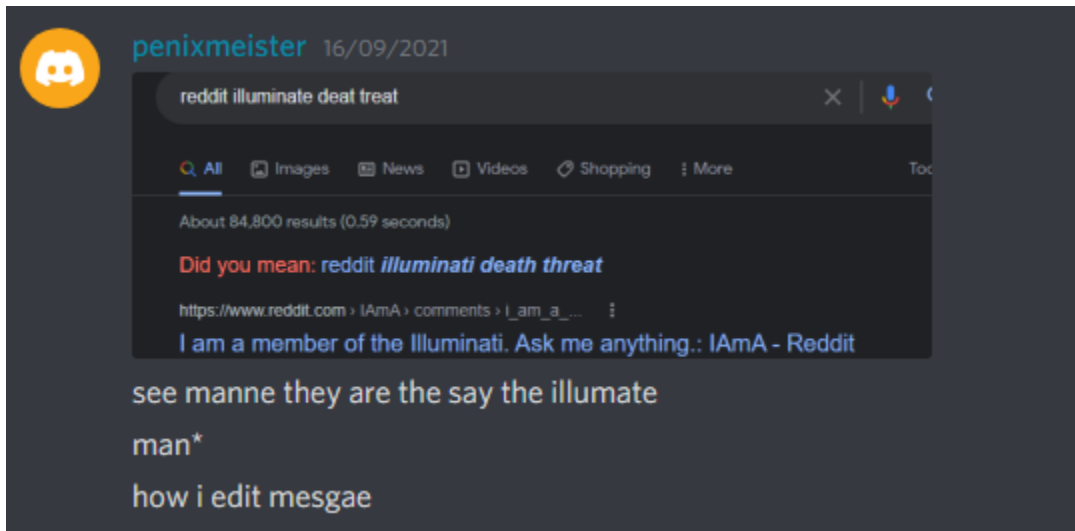

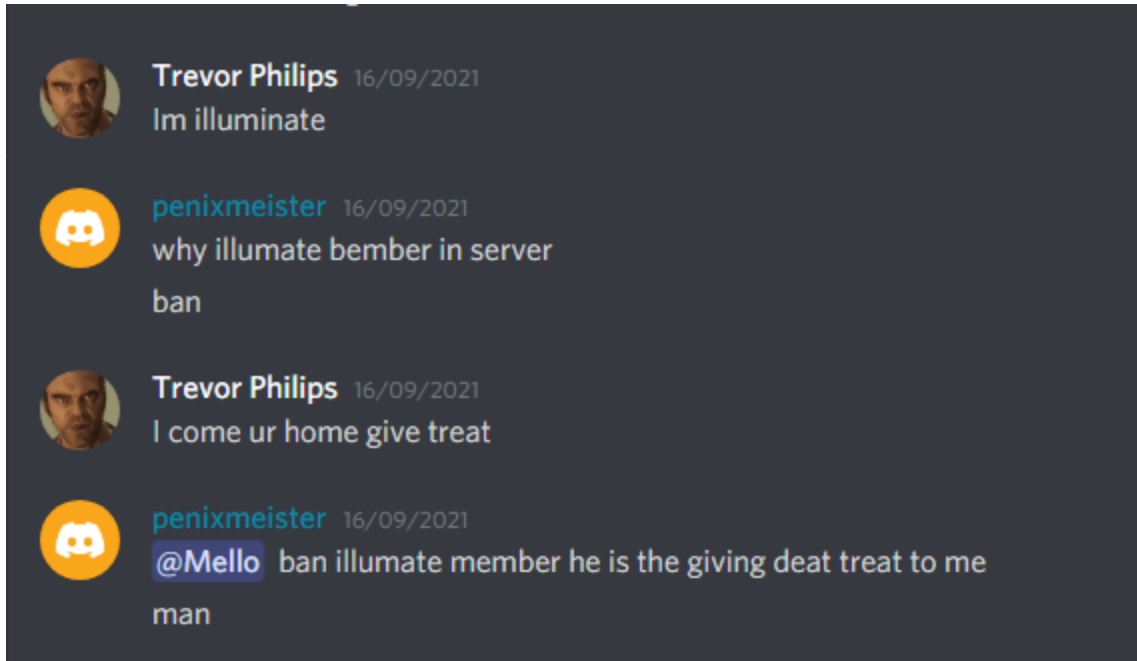

Penixxe was talking in very broken English with a shit ton of grammatical errors, which Mello found quite annoying. Some of what he said could count as shitposting or trolling.

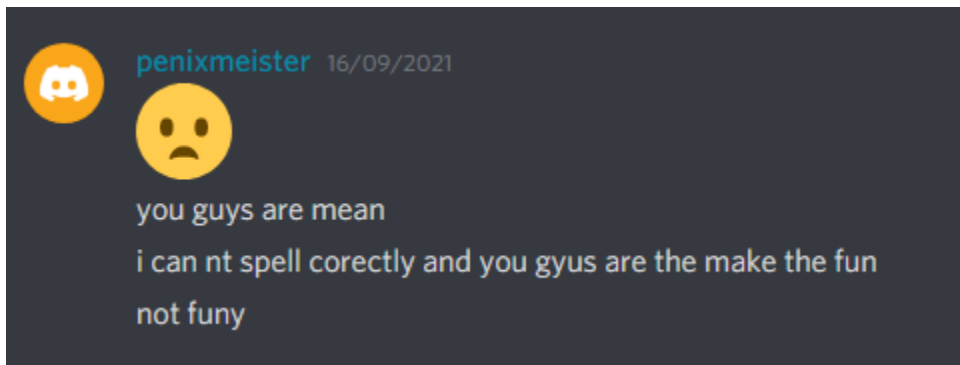

Penixxe posted about the Illumanti sending him death threats, and as proof he sent a picture of Google search results with one of the results being from Reddit and about the Illumanti.

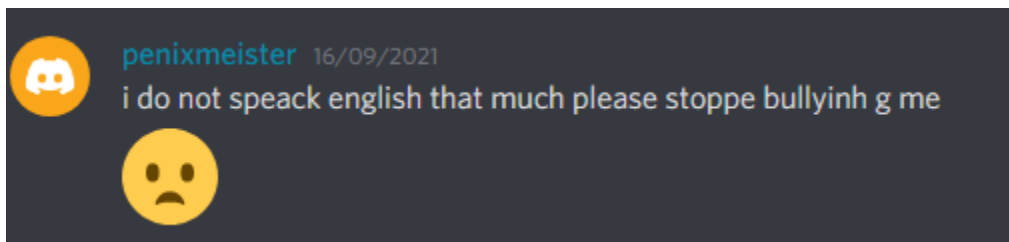

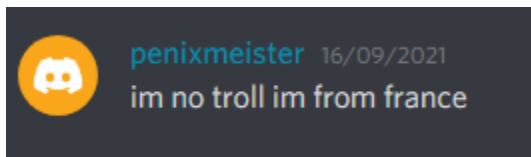

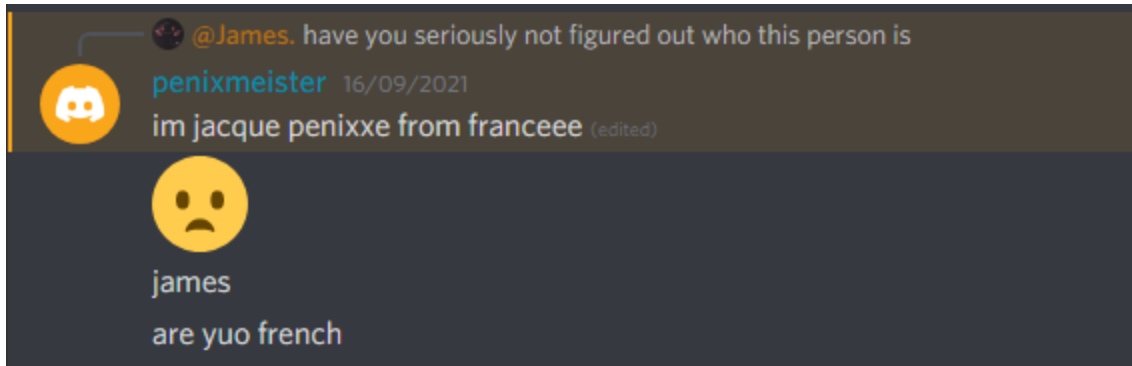

Penixxe found people making fun of his English offensive.

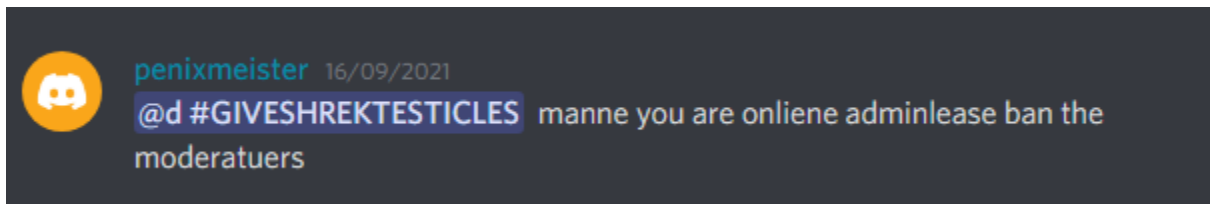

He kept insisting that he was from France, which was why he wasn't good at English (according to him).

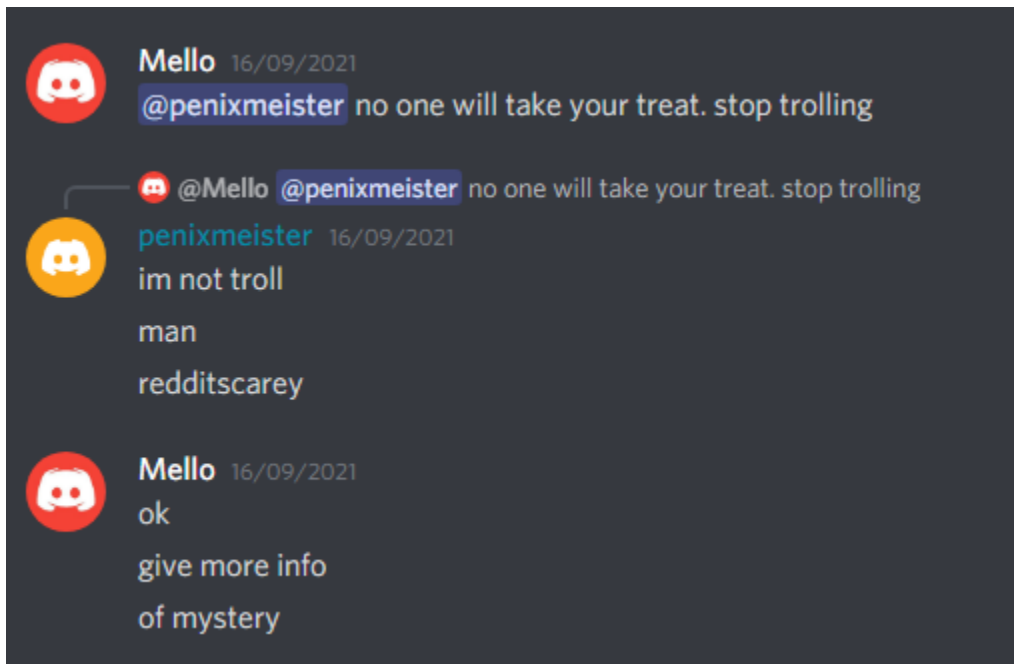

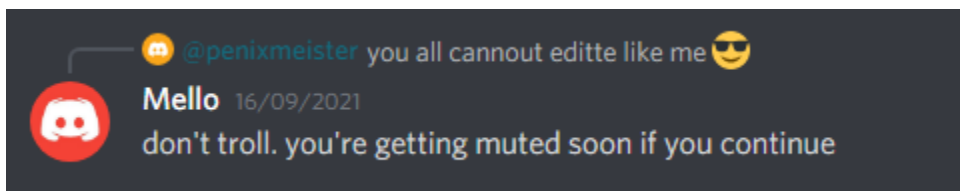

At one point, he pinged an admin asking to ban the moderators.

Mello was convinced that Penixxe was a troll, and constantly told him to stop. Keep in mind trolling is *not* against the rules.

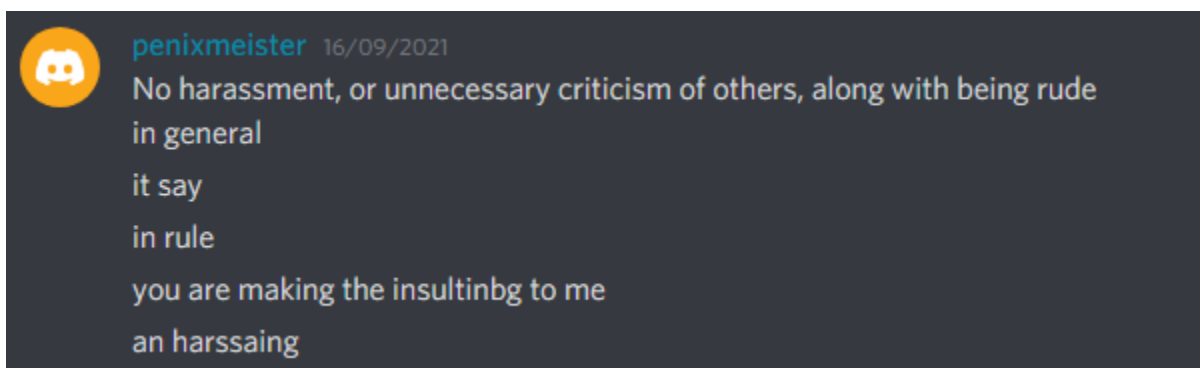

And this is where his second count of mod abuse started.

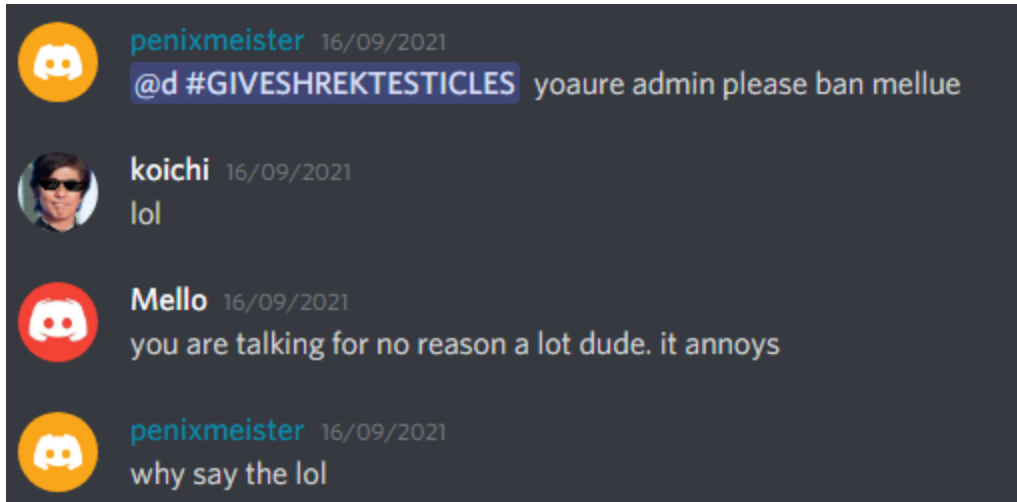

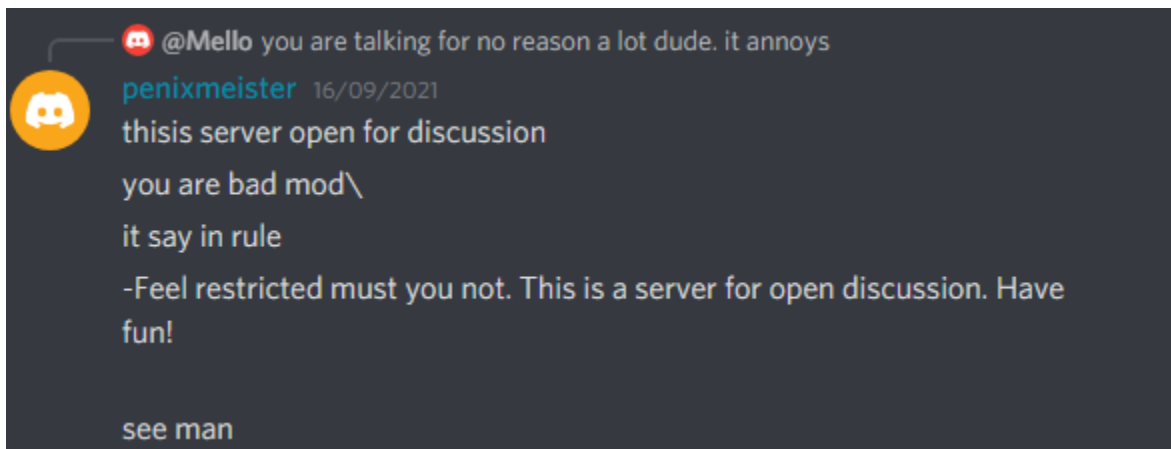

In fact...

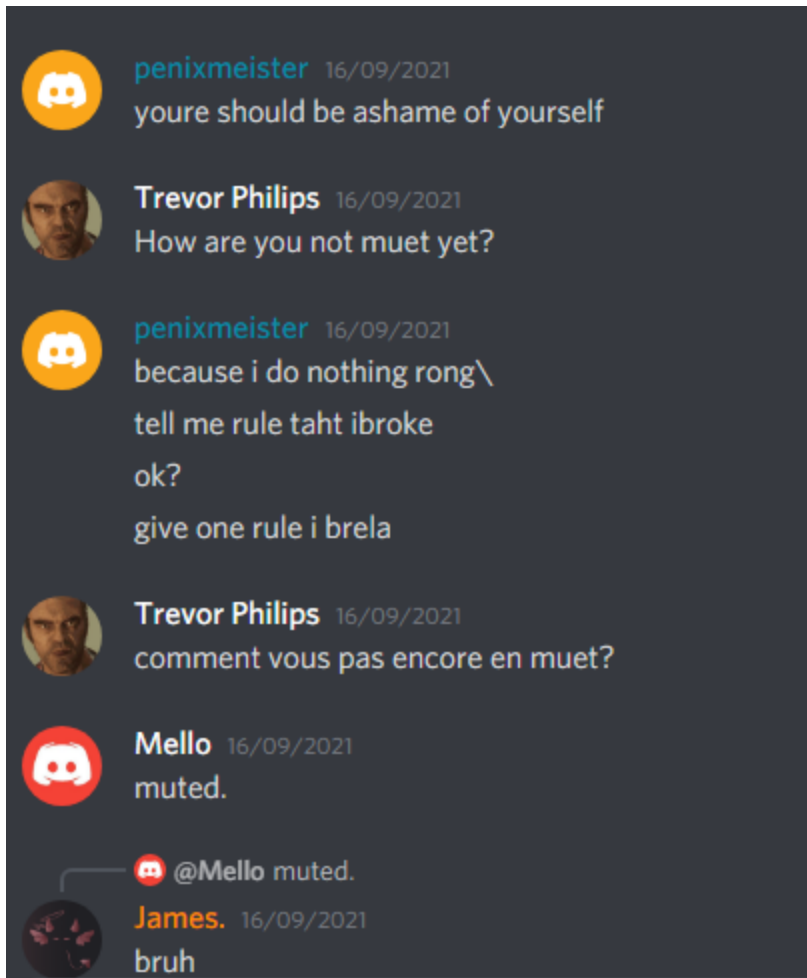

Now, Mello was making fun of Penixxe's English. And that does count as rule-breaking. Penixxe once again pinged an admin to ban Mello.

Talking for no reason isn't against the rules, and being annoyed is, well, a personal problem. And moderators cannot punish for "offences" like that. Penixxe striked once again.

And then Mello muted him.

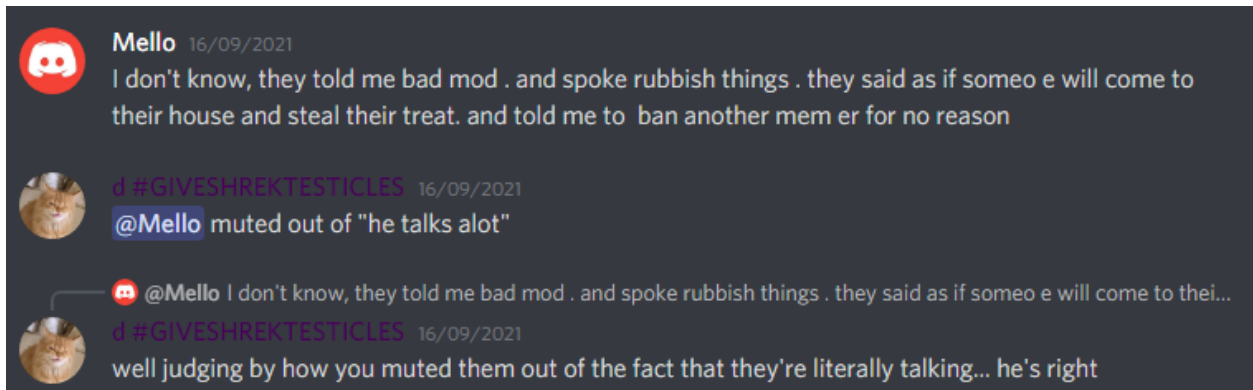

Now, shitposting, trolling, “talking too much” or talking nonsense *is not against the rules*. Despite their unfair punishment, some people still believed their punishment was justified.

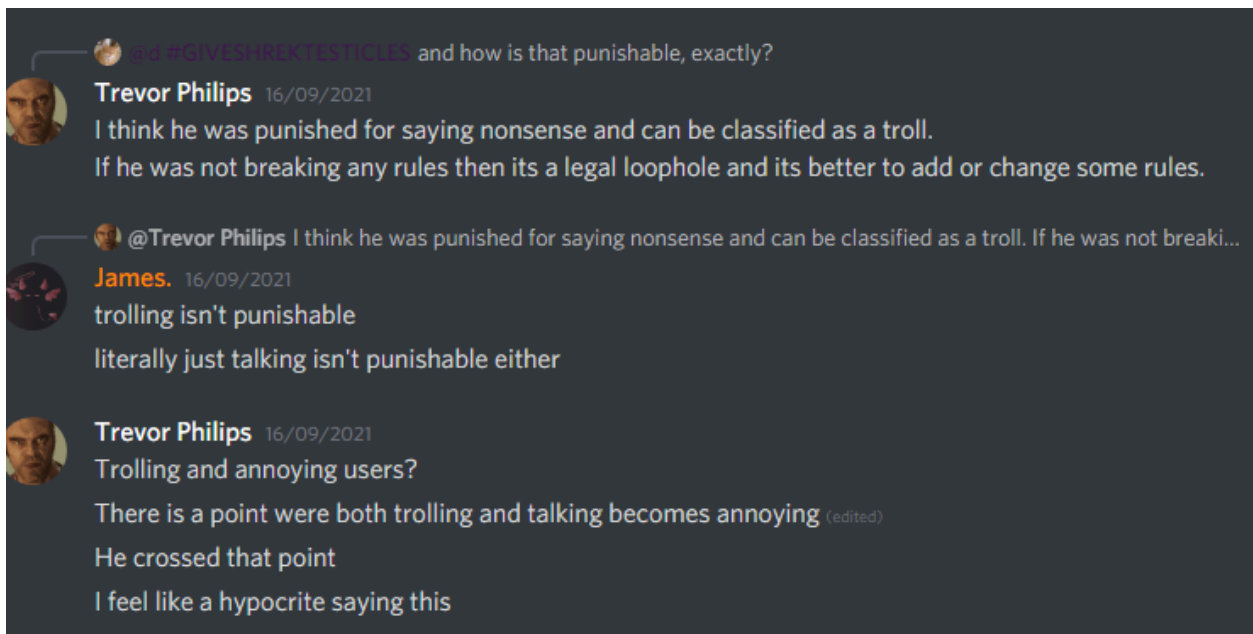

As seen in the above screenshot, Mello had muted because “he couldn’t handle” the trolling. And that type of reasoning isn’t enough to warrant a punishment. Therefore what he did counted as mod abuse. This was the second time he had committed this offence.

Later, the admin pinged entered chat. They looked over Mello’s mod abuse, and he received a permanent ban. He already had warnings for degrading members, too.

Mello brought up a lot of points (which were mostly unreasonable) to avoid getting a ban, but not to much avail.

People starting arguing against and for Mello's ban.

People also brought up a rumour about Penixxe being Shrekman's alt (who is known for "penix"), however this was proven untrue.

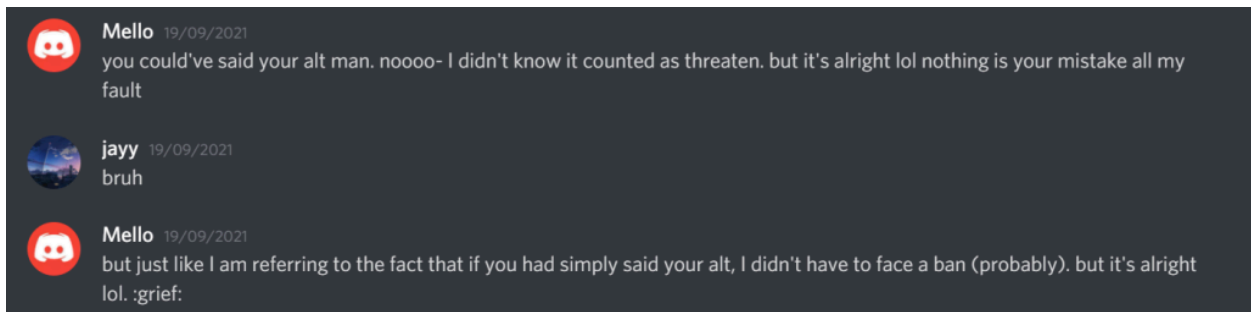

[screenshot]

There was a long, long argument about Mello's ban, where Trevor Phillips was defending him.

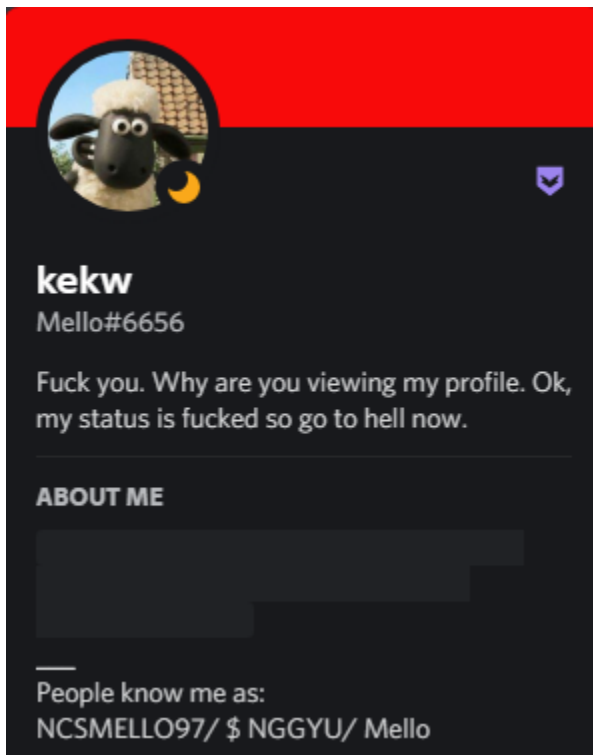

[screenshot?]

After Mello was banned, he did a lot of really stupid things, such as asking people for screenshots of the server. He also tried guilt-tripping and manipulating people.

He also “apologised” to the person he threatened to ban.

He continues to be edgy. :/
