

Dust of Freshness

(from the "Tome of Minor Items" from the Dragonsfoot forums)

This powdery substance will, when sprinkled over a person, make them smell fresh as if they just had a proper bath, regardless of how stinky, smelly, and grimy they have become. The recipient does not need to remove their clothing, and the powder can even work if they are wet. Each pouch carries 5 doses, and it takes 1 dose to cover a medium-sized person.
