

# IndivisibleNOCO Strategic Plan

## 2025 - 2026

### Introduction

IndivisibleNOCO was started the day after the November 2016 election. The election outcome was an affront to our deeply held values of honesty, integrity, empathy and justice. We knew that we had to actively resist what we see as a threat to democracy, our planet, women, people of color, people from other nations, our economy, and our future. 35 people attended our first meeting. Since then, we have grown to almost 3,000 members.

Democracy in the United States is under attack. The Trump administration is eroding the pillars of democracy at breakneck speed and with terrifying effectiveness. Congress is abdicating its power, the Supreme Court is giving Trump unchecked power and the press is failing to hold our leaders accountable. Saving democracy and preserving the rule of law is going to take the united effort of the people of the United States of America.

Saving democracy is not a small feat. The IndivisibleNOCO Leadership Team consists of a few volunteers who are dedicating much of their free time to the Indivisible movement, of which we have been a part since 2016. As an organization, we have limited resources in terms of time and money and we recognize that we need to leverage those resources as effectively as possible. We need to prioritize activities and spending where we can have the most impact.

This strategic plan will guide our activities through the November 2026 elections. We will revisit the plan in January 2026 to assess the state of affairs at that time and determine whether we need to revise any parts of our plan.
