

Get Shredded and Stay Strong with German Medico Andarine S4 – Now Available in 90 Caps at Supplements4muscle

Looking for a powerful cutting supplement that helps you maintain strength and muscle while dropping body fat? Meet [German Medico Andarine S4](#), the go-to SARM for definition, vascularity, and lean performance. Whether you're preparing for a competition or just trying to achieve a dry, sculpted look, **German Medico S4 90 caps** delivers results you can see—and feel.

Now available at **Supplements4muscle**, this advanced compound is trusted by experienced users who demand real, clean results.

What Is German Medico Andarine S4?

Andarine (S4) is a Selective Androgen Receptor Modulator (SARM) that's widely recognized for its ability to promote **fat loss**, **muscle retention**, and **muscle hardening**. It binds selectively to androgen receptors in muscle and bone, promoting anabolic activity without the full-body side effects of traditional steroids.

Core benefits of **German Medico Andarine S4** include:

- **Preserves lean muscle during cutting phases**
- **Enhances vascularity and muscle definition**
- **Boosts strength and performance** even in a calorie deficit
- **Improves bone density and joint support**
- Promotes a **dry, hard, aesthetic physique**

Unlike many SARMs, Andarine also has mild **recomposition benefits**, making it suitable for both cutting and lean mass maintenance.

Why Choose German Medico S4 90 Caps?

At **Supplements4muscle**, we only carry premium-grade products backed by science, testing, and trust. **German Medico S4 90 caps** offers high potency, clean formulation, and flexibility for cycle customization.

Each bottle contains:

- **90 capsules of pure Andarine (S4)**
- **A precise and convenient dosing structure**
- **Zero proprietary blends** – full ingredient transparency
- **Manufactured under strict quality control** in the EU
- **Ideal for 4–6 week cutting or recomp cycles**

If you're looking for a reliable SARM to help you cut fat while staying strong and looking sharp, this is your go-to.

Who Should Use German Medico Andarine S4?

German Medico S4 is ideal for:

- **Bodybuilders** entering a cutting phase
- **Athletes** looking for strength without bulk
- **Fitness competitors** preparing for stage or photo shoots
- **Experienced SARM users** seeking a dry, hard finish
- **Men and women** looking for lean gains and better definition

Whether used solo or stacked with other SARMS (like Cardarine for fat loss or Ostarine for joint support), **S4** helps deliver a leaner, more athletic look.

How to Use German Medico S4 90 Caps

Typical dosage: **25–50 mg per day**, taken in **divided doses** (AM/PM) due to its short half-life.

With **90 capsules per bottle**, German Medico S4 offers 30 to 45 days of flexible cycling support.

Cycle length:

Most users follow a **4–6 week cycle**, followed by **PCT (Post-Cycle Therapy)** to support natural hormone recovery, especially if using higher dosages.

Important Note:

Some users report temporary vision-related side effects (night vision shifts or light sensitivity), which typically reverse after the cycle ends. Always start at a lower dose to assess tolerance.
