

:/: v.: main verse

default verse for the blog, asks that don't specify the verse end up here.

designated muse(s): all blog muses

special feature(s): twilight as empress of equestria, post-kg kokichi/maki,
post-epilogue kieran, S2 centric laurance, living

shen,

pre-death rose quartz

notes: empress twilight cannot interact with celestia(s) in this verse

:/: v.: post-finale

grown-up verse, taking place after mlp:fim's finale, "the last problem".

designated muse(s): scootaloo

special feature(s): disconnected from empress twilight verse

notes: this verse is a future timeline to twilight's 'princess' verse

:/: v.: princess

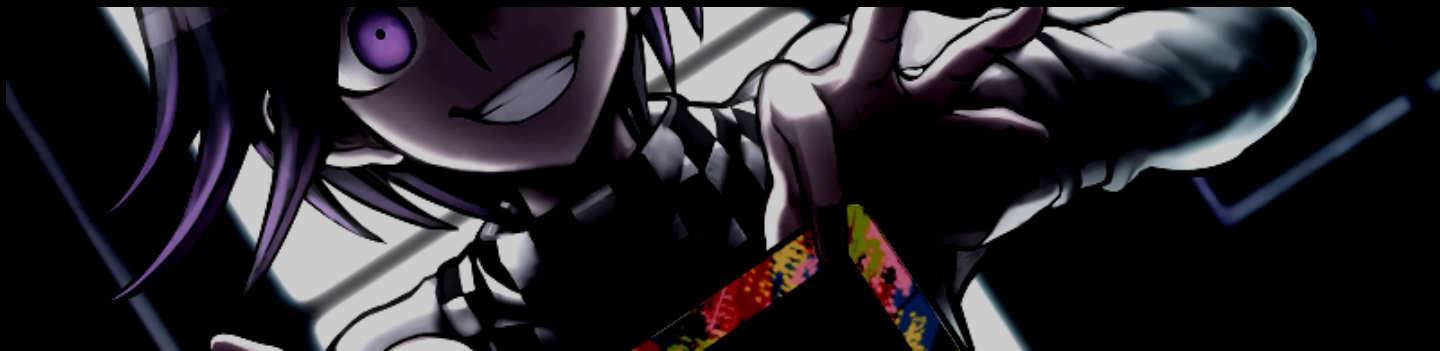

in-show verse, taking place during `mlp:fim` but before "the last problem".

designated muse(s): twilight sparkle

special feature(s): celestia is still alive, pre-princess retirement

note(s): not a prelude to empress twilight verse, timeline can be flexible,

default timeline is after "the big mac question"

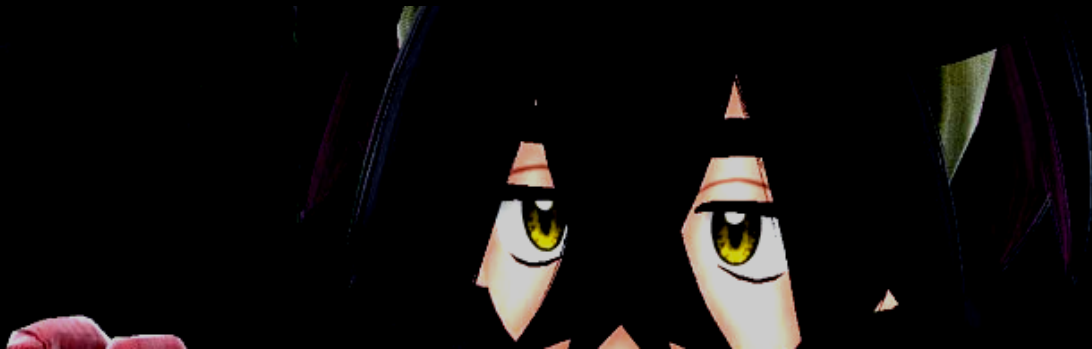

:/: v.: academy life

ultimate academy verse, set during either the date mode or the killing game.

designated muse(s): kokichi ouma, maki harukawa

special feature(s): can be any kg chapter, default is **post-ch1** execution

note(s): if set during the kg, chapter must be specified with verse,
verse can work for the ultimate talent development plan mode

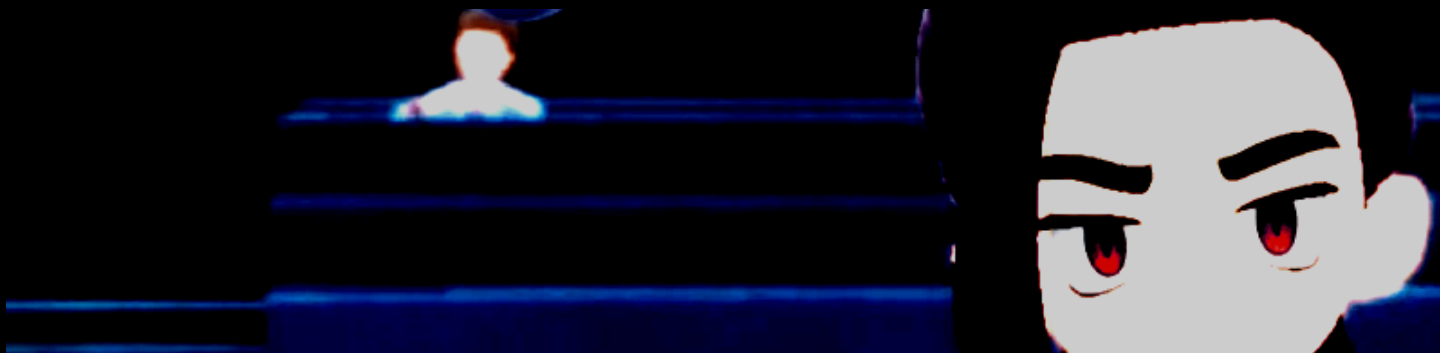

:/: v.: teal mask

in-game verse, set during the first half of the pokemon scarlet/violet DLC.

designated muse(s): kieran

special feature(s): can be set either before/after mc's arrival, default is pre-mc arrival, will always be pre-ogerpon capture

note(s): please specify if the verse is before/after mc's arrival

:/: v.: indigo disk

in-game verse, set during the second half of the pokemon scarlet/violet DLC.

designated muse(s): kieran

special feature(s): can be pre-champion battle or post-champion battle,
default is pre-champion battle

note(s): can't be post-terapogos fight because of verse confliction,
please specify if the verse is pre or post champion battle,
post-champion battle assumes kieran did not go with briar

:/: v.: the sixth fatui harbinger

scaramouche/the balladeer verse, set before "inversion of genesis".

designated muse(s): wanderer (katsutoshi)

special feature(s): can be mid-inazuma AQ's on request but never default,
time period is flexible & can go back to early kuni
era

note(s): cannot go into genesis quests due to verse confliction, threads in

this verse are non-canon to main verse wanderer's memories (but can be discussed if he interacts with the same mun's muse)

:/: v.: in our town

in-show verse, set before the events of "the cutie map - part 1 - 2".

designated muse(s): starlight glimmer

special feature(s): set directly before "the cutie map", however it can

be set during our town's initial founding on request,
can have a side AU with equalized mane six + others

note(s): not connected to my mlp muses/main verses, can interact with
mane six + others but threads will be rocky pre-premiere

:/: v.: crossover

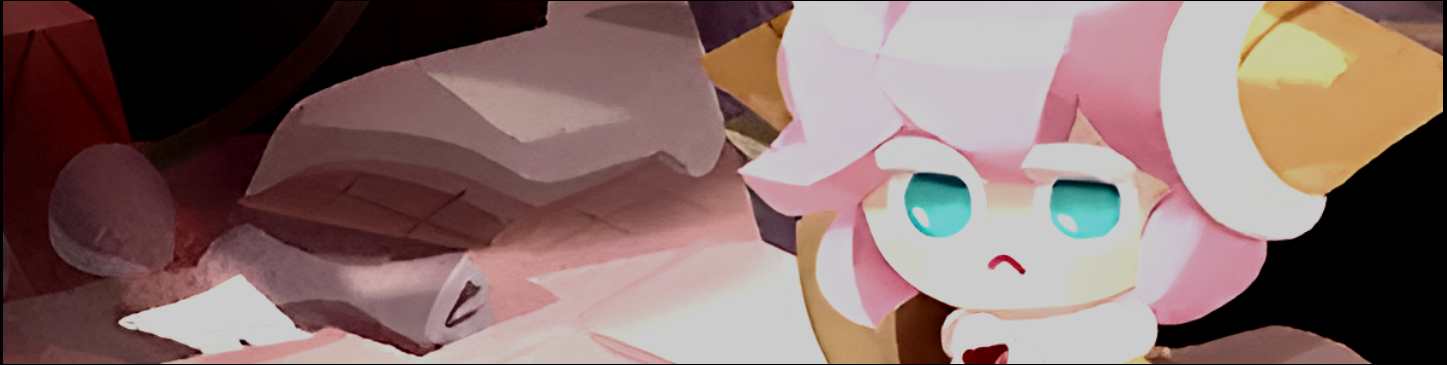

general verse for muses from different fandoms. see [crossover doc](#) for info.

designated muse(s): all blog muses

special feature(s): can make any blog muses into fandoms of the other muses,

crossover stories mirror original stories (*including backstories/major characters*)

note(s): this tag goes unused for crack threads/dash commentary, can be a gen tag for different fandom ints, non-applicable for fan ocs

:/: v.: fantasy

fantasy verse, to humanize & bring cookies to a fantasy/humanoid setting.

designated muse(s): all cookie run muses

special feature(s): human strawberry crepe (*a.k.a. lucien*)

note(s): separate from crossover & AU verses, used as a catch-all verse for

plots set outside of cookie run, backstories depend on other muse

:/: v.: au

alternate universe verse, for muses in completely altered worlds/settings.

designated muse(s): all blog muses

special feature(s): all AUs are entirely based on pre-thread ideas, can be canon rewrites or fully original plots

note(s): separate from crossover and fantasy verses, entirely disconnected from all other verses, heavily dependent on plotting
