## **Fresher Quality Analyst (E-Learning)**

### **Job Description:**

We are looking for a fresher Quality Analyst (QA) to join our dynamic e-learning team. As a QA Analyst, you will be responsible for testing and ensuring the quality of our online learning platforms, courses, and software. You will collaborate with instructional designers, developers, and content creators to identify and resolve issues that affect user experience and course functionality.

### **Key Responsibilities:**

- Perform manual and automated testing of e-learning platforms, modules, and mobile applications.
- Identify, document, and report defects, bugs, and inconsistencies in learning management systems (LMS), courses, or user interfaces.
- Verify course functionality, including multimedia elements (videos, audio, quizzes, etc.), navigation, and content layout across multiple browsers and devices.
- Collaborate with the development and content teams to ensure that course materials meet quality standards and are free from technical issues.
- Execute test cases and provide detailed feedback to the development team on potential improvements.
- Conduct user experience (UX) testing to ensure that the learning process is intuitive and engaging.
- Participate in requirements analysis and help in identifying potential risks and gaps.
- Keep track of test cases, results, and defects using QA tools such as JIRA, TestRail, or equivalent.
- Work with cross-functional teams to ensure seamless integration between various platforms and features.
- Continuously improve testing processes and suggest innovative solutions to enhance product quality.

### **Skills and Qualifications:**

- Bachelor's degree in Computer Science, IT, or a related field.
- Strong attention to detail and analytical skills.
- Basic knowledge of testing methodologies and techniques.
- Familiarity with e-learning platforms (e.g., Moodle) and Learning Management Systems (LMS) is a plus.
- Understanding of web technologies like HTML, CSS, and JavaScript.
- Knowledge of automation testing tools (e.g., Selenium) is a plus but not mandatory.
- Strong communication and problem-solving skills.
- Ability to work independently and as part of a team.
- Passion for quality and continuous improvement.

**Preferred Qualifications:**

- Basic knowledge of QA.
- Excellent Attention to Details.
- Awareness of SCORM and other e-learning standards.

**Benefits:**

- Competitive salary and benefits package.
- Opportunity to work in a rapidly growing e-learning industry.
- Hands-on training and mentoring from senior team members.
- Collaborative and innovative work environment.
