## Abstract

Please provide an abstract of no more than 100 words. Your abstract should explain the main contributions of your article, and should not contain any material that is not included in the main text.

Keywords: Keyword1, Keyword2, Keyword3

## Resumo

Por favor, forneça um resumo com no máximo 100 palavras. Seu resumo deve explicar as principais contribuições do seu artigo e não deve conter nenhum material que não esteja incluído no texto principal.

Palavras-chave: Palavra1, Palavra2, Palavra3

## Resumen

Por favor, escribe un resumen de no más de 100 palabras. Tu resumen debe explicar las principales contribuciones de tu artículo y no debe contener material que no esté incluido en el texto principal.

## 1 Introduction

Your introduction goes here! Some examples of commonly used commands and features are listed below, to help you get started.

### 1.1 Introduction Subsection

Here is an example of a subsection for the introductory section.

## 2 Example of a Second Section

Our format is not fixed, given the array of topics. Here is an example of a second section, which could be a literature review, materials and methods or whatever is appropriate to the research.

### 2.1 Some Examples

Use section and subsection commands to organize your document, e.g. subsection 2.1, Equation 1, Figure 1, Table 1.

### 2.2 Figures and Tables

Here are some examples for figures and tables. Figure 1 shows how to correctly place an image. Whenever possible, it should be 14.5 cm wide, so it fills the whole space assigned to it. Table 1 is a basic table, while Table 2 shows a larger example with table notes.

### 2.3 Citations

Citations and references should be formatted using the ABNT style, like: Carmona (2021), Brasil (2000) or Martinelli et al. (2018), and, after a longer reference, include it in parentheses (GRIWODZ et al., 2021).

At the end of the article, all references must be listed in alphabetical order.

Vila Isabel	105983	61	213	Passed
Del Castilho	87992	44	111	Passed
Jardim Guanabara	21093	52	89 <sup>2</sup>	Passed

Longer citations must follow this format:

Quam suscipit ut quidem et animi numquam consectetur et. Nihil et commodi ut officia eveniet beatae qui. Placeat accusantium eius consequatur animi nisi sed. Pariatur et dolores tempore velit similique voluptatem similique error. Quam suscipit ut quidem et animi numquam consectetur et. Nihil et commodi ut officia eveniet beatae qui. Placeat accusantium eius consequatur animi nisi sed. Quam suscipit ut quidem et animi numquam consectetur et. Nihil et commodi ut officia eveniet beatae qui. Quam suscipit ut quidem et animi numquam consectetur et. Nihil et commodi ut officia eveniet beatae qui.

## 2.4 Mathematics

Equations must be centralized and referenced by numbers. Use the appropriate tool available. Here's an example:

Let  $X_1, X_2, \dots, X_n$  be a sequence of independent and identically random variables with  $E[X_i] = \mu$  and  $Var[X_i] = \sigma^2 < \infty$ , and let

$$S_n = \frac{X_1 + X_2 + \dots + X_n}{n} = \frac{1}{n} \sum_i^n X_i \quad (1)$$

Denote their mean. Then, as  $n$  approaches infinity, the random variables  $\sqrt{n}(S_n - \mu)$  converge in distribution to a normal  $N(0, \sigma^2)$ .

## 2.5 Lists

You can make lists with automatic numbering ...

1. Like this,
2. and like this.

... or bullet points ...

- Like this,
- and like this.

... or with words and descriptions ...

### **About *Coleção Estudos Cariocas***

*Coleção Estudos Cariocas* (ISSN 1984-7203) is a publication dedicated to studies and research on the Municipality of Rio de Janeiro, affiliated with the Pereira Passos Institute (IPP) of the Rio de Janeiro City Hall.

Its objective is to disseminate technical and scientific production on topics related to the city of Rio de Janeiro, as well as its metropolitan connections and its role in regional, national, and international contexts. The collection is open to all

researchers (whether municipal employees or not) and covers a wide range of fields — provided they partially or fully address the spatial scope of the city of Rio de Janeiro.

Articles must also align with the Institute's objectives, which are:

1. to promote and coordinate public intervention in the city's urban space;
2. to provide and integrate the activities of the city's geographic, cartographic, monographic, and statistical information systems;
3. to support the establishment of basic guidelines for the city's socioeconomic development.

Special emphasis will be given to the articulation of the articles with the city's economic development proposal. Thus, it is expected that the multidisciplinary articles submitted to the journal will address the urban development needs of Rio de Janeiro.
