

# Zoom Google Login Steps

## Step 1

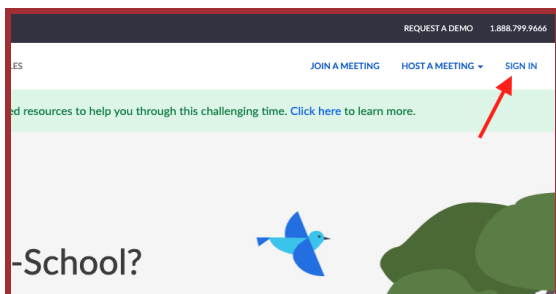

When the student logs into the device using the rcsdkids.us account on a District Chromebook, two tabs load automatically; Clever and Zoom.us. If they are not on a District Chromebook they should log into Clever by going to

<https://clever.com/in/rcsdk8>

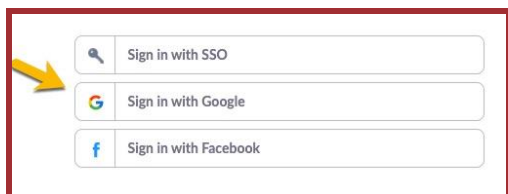

## Step 2

Students may already be logged into Zoom after logging in through Clever. However, if students see the message "The meeting is for internal only" when joining their Zoom meeting, they need to go to zoom.us and make sure to log into Zoom.

## Step 3

Students should then click sign in

## Step 4

Students should select "Sign in with Google" at the bottom of the page. Students sign in using their six-digit RCSD student ID followed by @rcsdkids.us and their rcsdkids.us password.

Once signed in, students will still need to access their meeting links from either Clever, Otus, or the Google Calendar previously shared by their teacher(s).
