

Name _____ Date _____ Period _____

Connective Tissues Note Taking Guide:

1. What is the point of making ears from apples?
2. Bone tissue is connective tissue. How do you grow a bone without a body?
3. What is the most abundant tissue in the body by weight? What are the functions of this tissue?
4. What are 6 different types of connective tissues? As we go through the slides make a short note on what each tissue type looks like to you. You will do more work with these in a worksheet.
5. What are the two main types of extracellular protein fibers found in connective tissue? What are their functions?
