A family heads to an isolated hotel for the winter where an evil and spiritual presence influences the father into violence, while his psychic son sees horrific forebodings from the past and of the future. A man, his son and wife become the winter caretakers of an isolated hotel where Danny, the son, sees disturbing visions of the hotel's past using a telepathic gift known as "The Shining". The father, Jack Torrance, is underway in a writing project when he slowly slips into insanity as a result of cabin fever and former guests of the hotel's ghosts. After being convinced by a waiter's ghost to "correct" the family, Jack goes completely insane. The only thing that can save Danny and his mother is "The Shining".
