NOTICE!!!!!!!!!
*I will be applying this map to the 2024 Halloween Mapathon whenever applications are open. This means we are on a time crunch (parts must be completed by **October 26th**) and you cannot take months to complete your part because if I get selected to be a part of it, I can be kicked if someone is holding up the map. Do not join if you know you won't be able to complete your part by **October 26th**. If I get kicked because of this, the person(s) holding up the map will be blacklisted from joining all of my maps going forwards.*

🐉ANIMATION RULES🐉

- No gore, no nsfw
- No tracing, AI, gacha life, roblox, any type of art theft or otherwise non-art resources isn't allowed
- The woman's voice is Peril (obviously) and the man's voice is Firestar (obviously)
- **DO NOT ANIMATE ANY CHARACTERS OTHER THAN PERIL AND FIRESTAR!!** With that in mind though, if your part uses both of their voices, you *cannot* only animate one of them. You have to do both.
- It is absolutely required that you follow the character refs provided for Peril and Firestar, changing colors intentionally can result in being kicked from the map if you do not fix it.
- You may change small physical features to fit your style as long as the character is still recognizable. For example, I like to add little spikes on the jawline of my dragons sometimes. That is perfectly fine. If you have any questions, PLEASE ASK!!!!
- The background for your part should be plain white, props are allowed, but the background itself should be white
- There's no script really but just do something that fits the lyrics
- This is a spoof map but you can't scribble something up and call it a day, there should be at least a little bit of effort.
- AMV, PMV, and tweening are all allowed as long as your part isn't a single still image
- Code, tell me if you prefer WoF or Warriors
- You may take up to 2 parts at a time
- You will have 1 week to complete your part and I will allow a single week extension. I won't give any more than that unless there is something **physically** preventing you from doing your part
- PLEASE DO NOT ADD CUT INS/OUTS! Additionally, please do not send your video as a YouTube link. Please send it over discord, no extra links or extra things to cut out. (You may send a YouTube link only if you provide me with the video itself too)
- I recommend that you make your part slightly longer than the audio. Pausing the beginning or end frames works as well as saving your audio with a slight overlap with the neighboring parts (Please tell me if this is explained poorly, I can elaborate)

🐈THUMBNAIL RULES🐈

- Thumbnail winners chosen! This is now closed!
