Whole provider approach: Impact evaluation template

Name of HEP	**Institutional lead**	**Evaluation lead**
What is the problem you are trying to solve?		
Are you improving the student experience or the enabling environment?		
What stage of the student lifecycle or dimension of the enabling environment are you focusing on?		
What are you trying to change or achieve through this enhancement?		
Descriptive summary The interventions / activities to be delivered	**Impact narrative (theory of change)** Describe how you think this intervention will improve the WPA dimension identified above in the short and medium-term and contribute to student equity in the longer-term?	
	Outputs (what will be delivered) Short-term benefits (who or what will benefit and how) Medium-term outcomes (how will the enabling environment or student experience be enhanced) Longer-term impact	
Evidence/rationale What is the evidence that suggests that this intervention will be effective? Include details of internal and external evidence that informs your choice of intervention and ToC.	**Assumptions/risks** Identify any assumptions that underpin your ToC, and consider whether these are realistic, or if they point to the need for additional activities.	

Implementation process			**Evaluation indicators and methods, including baseline if applicable**		
Inputs (human, organisational and financial resources) required to deliver this intervention.	**Activities** that will be delivered as part of this intervention.	**Outputs** Deliverables as specific as possible e.g. specific policies/processes to be reviewed, number of staff/students trained, etc.	**Short-term benefits**: what are the immediate benefits of these activities? How will you know if these benefits have been achieved?	**Medium-term outcomes**: what will change as a result of the intervention/activities to improve or change the WPA in the medium-term? How will you demonstrate that these changes have happened?	**Longer-term impact**: what is the longer-term impact that will be achieved as a result of this intervention?

Evaluation process: Describe who will do the evaluation, provide any additional information about methods or data sources, and information about evaluation funding required. Include proposed start and finish dates.

Dissemination plan: Please indicate if you think the findings from the evaluation of this intervention could be disseminated.

	To whom	**When**	**In what format**	**Other details** (e.g. committee, publication)
