

PUBLICACIONES

- (2024) *Physics of the Dark Universe*. Gravitational waves during Higgs inflation from complex geometrical scalar-tensor theory of gravity. Recuperado de <https://doi.org/10.1016/j.dark.2023.101372>
- (2023) *Physica Scripta*. Dark energy from a geometrical gauge scalar-tensor theory of gravity. Recuperado de <https://doi.org/10.1088/1402-4896/acb868>
- (2022) *Physics of the Dark Universe*. Non-perturbative gauge invariant scalar fluctuations of the metric in Higgs inflation from complex geometrical scalar-tensor theory of gravity. Recuperado de <https://doi.org/10.1016/j.dark.2022.100988>
- (2022) *The European Physical Journal Plus*. Extending Λ (t)- Λ CDM to the inflationary epoch using dynamical foliations and a pre-inflationary vacuum energy from 5D geometrical vacuum as a unifying mechanism. Recuperado de <https://doi.org/10.1140/epjp/s13360-021-02143-y>
- (2019) *Physica Scripta*. Aspects of $(4 + 4)$ -Kaluza-Klein type theory. Recuperado de <http://www.scopus.com/inward/record.url?eid=2-s2.0-85074543623&partnerID=MN8TOARS>
- (2019) *Canadian Journal of Physics*. Gravitoelectromagnetic inflation and seeds of cosmic magnetic fields from geometrical Weyl-invariant scalar-tensor theory of gravity. Recuperado de <http://www.scopus.com/inward/record.url?eid=2-s2.0-85065220496&partnerID=MN8TOARS>
- (2019) *Physics of the Dark Universe*. Relativistic quantum geometry from a 5D geometrical vacuum: Gravitational waves from preinflation. Recuperado de <http://www.scopus.com/inward/record.url?eid=2-s2.0-85067923101&partnerID=MN8TOARS>
