Staff Guidelines In A Table

Rules with a '*' next to their name mean that there is extra information which you need to know; see below the table.

Rules with a '+' next to their name mean that if the player doesn't break the rule within 2 hours, it goes back to offence 1 (unless they are punished).

Update: As of 05/02/2017, players can use abbreviations of swear words. There is nothing wrong with them; do not punish players for using them.

FAQ's

Swearing:

If the swear word is starred out, for example: '****,' then the player does not need to be warned; unless they're evading the swear filter or its something like this, '**** you you small kid go suck on my **** you piece of ****.' Then that can account for disrespect, therefore please review the disrespect section.

Death Threats:

This is a topic which staff tend to get confused with, please read this section carefully.

The examples below state how the punishments would work. If someone is using a death threat to disrespect someone, base their message around this to determine how long you would punish them for.

'Kys Ben1026' - 3 hour mute - 1 day ban - 7 day ban - 30 day ban - permanent ban.

'Go die in a hole Ben1026 with your family you fat ****' - 7 day ban - 30 day ban - permanent ban.

These offences never expire, therefore if someone does wish death upon someone once, the next time it will be offence 2, and then offence 3 and so on.

Advertising Server:

If the player is private messaging someone about playing on another server, that is not considered advertising. Only if the player is advertising it in public chat.

Advertising Server Name:

If the player is spamming 'Hypixel is the best' instantly mute them for 3 hours, 6 hours, 3 day tempban, 30 day tempban.

If someone simply says a server name, follow what it says in the table.

Banning format:

Whilst banning any players you need to include proof for the player to see exactly why they are banned.

E.g. /Ban Yeetman Hacking - www.youtube.com

E.g. /Ban Yeetman 1d Racism - 2nd Offence - www.imgur.com

Spamming:

Spamming is officially 5 or more of the same letters in a row.

E.g. Hiiiiiiiiiiiiiiiiiiii = Not Allowed

E.g. Hiiii = Allowed - Its 4 i's not 5

Also repeating a section of characters over again 4 or more times is not allowed.

E.g. Blhblhblh = Allowed

E.g. Blhblhblhblh = Not allowed - its repeated 4 times not 3

Caps:

Capital letters are sometimes blocked by the chat control plugin but if it doesn't block it here is the rule. You are only allowed to 'Block Capital' one word in your sentence.

E.g. HELLO my name is Ollieed = Allowed

Therefore:

E.g. HELLO MY NAME is Ollieed = Not Allowed - there are more than 1 word capitalised.

Also:

Any 'Block Capital' words all alone are allowed.

E.g. HELLO = Allowed

E.g. HELLO WORLD = Not allowed

Also the length of the word doesn't effect the mute unless, they are purposely trying to fill up their whole sentence with Capital letters.

E.g. HELLOMYNAMEISOLLIEEDANDILIKECHICKEN = Not Allowed

E.g. ONOMATOPOEIA = Allowed
