

Resident Tattoo Artist Employment Listing

Job Title: Resident Artist

Studio Name: VERUM Body Art Studio

About Us: Verum Body Art Studio is a fine art tattoo studio built on artistic excellence, professionalism, and continual growth. We believe exceptional tattooing begins with exceptional artistry, and we've created a collaborative environment where constructive critique, mentorship, and lifelong learning are part of our everyday culture. We're building a team of artists who value craftsmanship, integrity, and client experience as much as technical ability.

The Role: We're seeking a talented Resident Artist to join our growing team. Whether you're a well-rounded artist or have developed a strong specialty, we value exceptional fundamentals, professionalism, and consistent growth. While all styles are welcome, we're especially interested in traditional or old-school, neo-traditional, Japanese, geometric, fine-line, illustrative, or trash-polka styles, as we're intentionally building a diverse artistic team.

Responsibilities Will Include:

- Maintain a neat and sterile workspace, adhering to all health, safety, and sterilization regulations.
- Design and execute custom tattoos across a variety of styles (or hone your own specific style), ensuring precision, artistic integrity, and client satisfaction.
- Conduct client consultations to understand their vision and provide guidance on design, placement, and aftercare.
- Manage appointments, schedule clients efficiently, and maintain clear communication throughout the tattooing process.
- Stay updated on industry trends, techniques, and equipment to continuously enhance your skills and offerings.
- Contributing to a respectful, growth-oriented studio culture, maintaining a professional online presence, and supporting marketing initiatives.

Qualifications:

- Experience as a professional Tattoo Artist with a strong portfolio showcasing various styles and techniques, or strong specialization in one.
- Current Bloodborne Pathogens certification.
- Excellent artistic ability, including strong drawing and design skills.
- Open communication and interpersonal skills to build rapport with clients and colleagues.
- Strong work ethic, attention to detail, and a commitment to quality.
- Self-motivated and able to manage time and appointments effectively.

Growth & Compensation:

Resident Artists begin at fifty percent commission plus one hundred percent of tips. We offer a clear, performance-based tiered commission advancement program that rewards artistic growth, professionalism, and contribution to the studio.

At Verum, commission reflects a mutual investment. We handle much of the logistics, marketing, and administrative work so artists can focus on art, clients, and having a sustainable, balanced career.

What We Offer:

- High-quality equipment and supplies.

Studio provides: furniture, autoclave, stencil paper/printer, and tattoo equipment including needles, inks, tubes, gloves, paper towels, fluids, sanitizer, etc.

*The artist provides their personal machine(s), power supply, clip-cord, and personal art supplies.

- A supportive, drama-free, and creatively stimulating studio environment.
- Marketing support and assistance with client acquisition.
- Opportunities for professional development and participation in industry events.

Who Thrives At Verum?

- Artists who are humble and driven.
- People who value constructive feedback and want long-term artistic growth.
- Artists who care about client experience and professionalism as much as the tattoo itself.
- People who want a true team.

We're not a collection of independent artists sharing a space; we're a team that pushes and elevates one another.

To Apply: To see if we're the right fit for you, please submit your resume, a link to your digital portfolio (or clear photos of your physical artwork), and a cover letter explaining your passion for tattooing to **Verumbodyartstudio@gmail.com**.
