

The Garbage Will Do

Goal: Provide a unique casual experience as an additional Play Mode for Star Wars Unlimited

Premise: We have found that sometimes your locals may get a little stale between Store Champ, PQ, and Regionals Season. With a new set coming out, we decided we wanted to provide a format that would allow everyone a unique opportunity to play some under utilized leaders. We have created a curated list of leaders that can be utilized, but your local group can make up their own rules. We also restricted the use of some of the more powerful cards to help provide a similar experience to a sealed pool of cards but allowing us to play cards we would not normally play.

Rules

1. All Constructed FFG Rules apply that are not alerted below.
2. All card bans and restrictions are enforced.
3. You can only use leaders from the curated list below. These leaders should represent the bottom tier leaders who have not won or topped in a Planetary Qualifier of 40 or more people. Basically we want leaders that are not played as often.
4. Legendary and Rare cards are banned and should not be included in this format.
 - a. Optional Rule 1: You could allow the player to use one copy of rares or legendaries if your group all has the playing cards.
 - b. Optional Rule 2: You could also ban special rarity cards that only come in starter and spot light cards.
5. As the meta changes, check the most recent tournament results to help evaluate your leader selections.
6. Have Fun!

Leader List

Spark of Rebellion

- Chewbacca
- Hera
- Cassian
- Jyn Erso
