Statement from Kenneth C. Griffin, Citadel Founder and CEO:

“Leadership in Springfield has failed to improve our schools, end decades-long corruption, and stop the pattern of reckless spending that threatens to bankrupt our state. Since 2000, 168,000 people have left Illinois, with over 50,000 moving out just last year, and 891 public officials have been convicted of corruption. I actively support candidates who I believe will fight for the future of Illinois citizens rather than prioritizing their own selfish political ambitions.”
