

## **Education**

### **1) A3D3 Seminar Series**

- Are Mondays at 12pm PT - agreed
- Once per month: which Monday - first
- Order: HEP, MMA, Neuroscience, HAC? HEP first in January (10th) 2022
- Should the Coordinators make the suggestion or do we want to form a Seminar OC? Coordinator suggest and vet on Slack
- 5th will be non-A3D3 science area
- One per six months - a higher level talk: A3D3 Distinguished Speaker Series
- List on indico

### **2) Developing and Prioritizing Tasks for Year 1:**

- Undergraduate Participation
- Curriculum Development
- Training
- Citizen Science Kits
- QuarkNet
- Local Events and Social Media
  
- Can we identify FML events that we want a presence at? Annual FastML for Science workshops - in person in Dallas in Spring 2022?
- Are there other education events where we want a presence? Coordinators to think about; national society meetings, e.g., AAS, APS Teachers; lead by postdocs?
- What is the scope for public repository of open-source Python software packages, open data, tutorials? This is for citizen science specifically can be fallow for 2022
- What public lectures and exhibitions at local museums/planetariums are we considering?
- When do we want to start developing the A3D3 Podcast series?

### **3) Coordination**

- Can each institute member and science groups nominate an Education POC for a Education Resource Census?
- Does it make sense to create subgroups of invested/interested folks - do we have enough to populate these without significant overlap?
- Do specific institutions want to take charge of particular items?

### **Notes:**

Ways in which A3D3 material/data sets can impact teaching/curricula, etc.
