## Summarising in your own words

**WALT:** Summarise the important information in our own words.

Task: Choose one of your texts that describes the scientific reason for the natural phenomena you are focusing on. Write a summary that will explain why and how this natural phenomena occurs following the steps below..

- Select your text
- Record the 20 important words from the text in the table below.
- Choose the 6 MOST important words and highlight them.
- Use those six words to sum up the text in 1 paragraph

| Write paragraph here |  |  |  |  |
|----------------------|--|--|--|--|
|                      |  |  |  |  |
|                      |  |  |  |  |
|                      |  |  |  |  |
|                      |  |  |  |  |
|                      |  |  |  |  |
|                      |  |  |  |  |
|                      |  |  |  |  |
|                      |  |  |  |  |
