Article history: Received September 2024 | Revised October 2024 | Accepted December 2024

Abstract

Should consist of one paragraph, should not exceed 300 words, and should contain the background and objective of the paper, its principal results, and its conclusions. Avoid using abbreviations and citations.

Keywords: keyword 1; keyword 2; keyword 3

Abstrak

Abstrak terdiri dari satu paragraf dan tidak lebih dari 300 kata dan mengandung background, tujuan makalah, hasil, dan kesimpulan. Hindari menggunakan singkatan dan sitasi

Katakunci: katakunci 1; katakunci 2; katakunci 3

A. PENDAHULUAN/INTRODUCTION

Consisting of background, literature review (to arrange the state of the art), purpose and problem. Consisting of background, literature review (to arrange the state of the art), purpose and problem formulation. Consisting of background, literature review (to arrange the state of the art), purpose and problem formulation. Consisting of background,

literature review (to arrange the state of the art), purpose and problem formulation. Consisting of background, literature review (to arrange the state of the art), purpose and problem formulation. Consisting of background, literature review (to arrange the state of the art), purpose and problem formulation. Consisting of background, literature review (to arrange the state of the art), purpose and problem formulation. (Suib, 2017)

B. METODE/METHOD

Combine the methods and procedure used into one narrative passage. Enough information should be provided to enable repetition of the research. For commercial sources of the materials, the name of the company, and the town and country in which they are located should be indicated. Methods already published should be indicated by a reference, with only the relevant modifications described here; e.g. "Powder solubility was evaluated according to the method proposed by Smith (2000), with modifications. In the case of this study, powders were stirred in 25 mL of distilled water for 5 min using a blender."; or "The powder solubility test followed the method of Smith (2000), with modifications in water volume. Powders were stirred in 25 mL of distilled water for 5 min using a blender." (Lexy j. Moleong, 2001) (Ismail Nawawi, 2013)

C. HASIL/ RESULT AND DISCUSION

Inform a number of important data (original) field which obtained from the questionnaires, surveys, documents, interviews, observations and other data collection techniques. It can be completed with table or graphics to clarify the result. All figures and tables should be centered and numbered consecutively. Tables (refer to Table 1, Table 2,...) should be presented above the table contain in center alignment. A descriptive title should be placed after table title (refer to Table 1, Table 2,...) above each table. The source of the table should be placed on the table in the right alignment. Figures and tables should be mentioned in the related text. (Faizah & Suib, 2019). (INDONESIA, 2004) (Septantiningtyas et al., 2020)

The rules for the most common units are as follows:

Unit	Example	Note
Temperature	30°C	No space after the number
Volume	mL, L	Capital L for liter
Time	d	days
	h	hours
	min	minute

Tables. Semua tabel yang disertakan harus dirujuk dalam teks utama dan judul tabel harus diposisikan di atas tabel. Judul dan teks dalam table dituliskan dalam Verdana, 9pt.

Table 1. Comparison of Reliability of
SUTTE, SMA, dan MACD

Indicato r	MSE	MAD
SUTTE	1,385	0,83 2
SMA	2,590	1,09 0
MACD	14,67 0	2,95 2

Figures. Gambar yang bisa dimasukkan adalah gambar yang berekstensi .jpg atau .png and mesti dimasukkan ke dalam text, sebagai contoh lihat

Figure 1. [1] dengan Verdana 9pt.

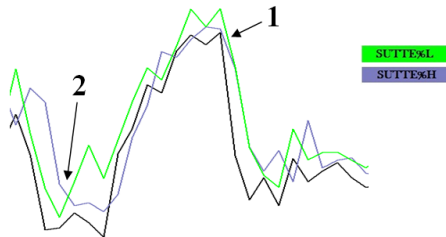

Fig. 1. Movement of Stock of Facebook Inc.
26 September 2014 – 10 November 2014

D.PENUTUP /CONCLUSION

Conclusion should answer the objectives of the research and the research discoveries. The concluding remark should not contain only the repetition of the results and discussions or abstract. You should also suggest future research and point out those that are underway.

E. DAFTAR PUSTAKA/REFERENCES

List all items alphabetically. Literature cited during the construction of the paper are included in the bibliography. For the purposes of efficiency and conciseness, avoid using more than 40 references and less than 10, consist of 70% journal references and 30% book references. Journal references should be at least 5 recent years, while book references. GUYUB uses an APA 6 th Edition (American Psychological Association) format.
