

Your Name

Due Date

Teacher/Class

Create a basic Title (you can improve it later if needed)

Introduction (Usually 1 paragraph)

What's this paper about?

Is there a Thesis or Main Idea?

You can mention the 3 **topics** that are coming in the body paragraphs, parts or sections below.

Part 1 (Write your Body Paragraph or Section 1)

What's the actual point of this section?

What's the supporting evidence? (usually 3 things, sometimes quotations)

1. ...

2. ...

3. ...

Part 2 (Write your Body Paragraph or Section 2)

What's the actual point of this section?

What's the supporting evidence? (usually 3 things, sometimes quotations)

1. ...

2. ...

3. ...

Part 3 (Write your Body Paragraph or Section 3)

What's the actual point of this section?

What's the supporting evidence? (usually 3 things, sometimes quotations)

1. ...
2. ...
3. ...

Conclusion

Write what my paper is about? What did I just teach my audience?

Bibliography or Works Cited Page (Usually on it's own page)

1. ... Add my sources here
2. ...
3. ...
4. Citations: <https://www.easybib.com/>

DIRECTIONS

How to use Seth's template:

1. This template will make your writing **MUCH** faster, easier, and better. You can use it over and over for years.
2. It's the format most teachers want. Of course you will have to make changes based on your teachers requirements, but this will still make things easier.
3. Go to File > Make a copy > Change the "Name" > Click the "Make a copy" button
4. Now use your NEW copy to start to "plug and play" and to start your own paper.

PASTE YOUR RUBRIC BELOW

1. When possible, cut and paste your rubric or assignment details **here**, so you can refer to it as you write.
2. Use my “fine-toothed combing” technique to go through this rubric and **clarify** what you have to do for your paper, step by step. Delete every detail in the rubric you no longer need, as you go.
3. Be sure to delete the entire rubric section **BEFORE** turning it in.

Just an FYI reminder: The 5 Step Writing Process:

1. Plan your writing (Pre-writing: outlines, webs, graphic organizers, draw, think, talk it out)
2. Draft it
3. Revise it
4. Edit it (Revising and editing often overlap. It often takes several revisions to “finish”.)
5. Publish it, aka turn it in
