Designs

➤ **All designs are able to be gifted, traded or sold**

- Do not gift, trade or sell to anyone on my blacklist or greylist, these include designs created by Contagion on Toyhouse as well.
 - I can't exactly prevent this but I will bar you from receiving any of my designs and purchasing any one-off designs from me if this is discovered.
 - Blocked people can get my designs unless they're specifically listed on my blacklist, I just prefer not to personally contact that individual myself/see whomever's content.
- I understand emergencies and serious situations come up. All I request is don't be disrespectful and over-inflate worth to sell one of my designs. I will remove this if I discover many are abusing this term and request against this entirely.
 - This includes, but is not limited to; if you create a piece and add an inaccurate price amount compared to other pieces you create.
 - An example of this would be creating a piece you value at \$100 for a full body, however you normally price a full body at \$40.
- If you receive a design in a trade, let's say worth \$50 and you traded a design worth \$100 for it, that design is STILL worth the original \$50 and not \$100.
 - This includes, but is not limited to; if you add on commissioned artwork or personal pieces. Again, do not intentionally over-inflate the worth to sell one of my designs.

➤ **You can freely change a design's species, inquire over Closed Species**

- I do request permission if you are looking to turn one of my designs into a Closed Species, do not be upset if I decline.
 - I cannot prevent the change of a design's species, however you will be barred from receiving designs from me in the future if you intentionally overstep and still use my design as a part of the Closed Species I decline.
- No, I do not have a currently active list, here are a couple I can list. Note these are not personal or against the species or their creators, just a preference.
 - Grem2/GremCorp
 - Any species requiring a strict 18+ guideline, in specifics for "NSFW" purpose, I want my designs to be open to most age groups

➤ **You can redesign my designs, whether light or heavy**

- However I do request permission for heavy redesigns as I would not want their entire design to be separated from the original. Do not gift, sell or trade the old design whatsoever.
 - I would still request to be either a creator or designer as I still made the original design, I'm not picky with either, as long as I'm properly credited.
- Don't sit and request to be a designer for turning one of my designs from an anthro to a feral or from a feral to an anthro without changing anything.

- An example would just be adding accessories to the same design, if you didn't make other serious changes, don't request to be a designer.

Payments

➤ **Payment is solely taken via CashApp, Ko-Fi, PayPal or VGen**

I may take payment simply by having you regularly send it through to my PayPal, I may invoice you or may even take CashApp.

- I typically only use PayPal Invoice for larger transactions equal to or over \$50, however it's not abnormal for me to randomly request an invoice every once in a while, even with regular clients or customers.
- *I only take Ko-Fi and CashApp for specific listings such as one-off sales, I typically will not take CashApp for any commission work unless you're a regular, trusted client.*
- *Inform me if you're sending payments via another individual (IE. A voucher) as I will request extra information from you about said voucher.*
 - I may not accept your voucher if I feel they will not be reliable.
- **Any payment made to me for any design or one-off sale will be considered a permanent sale**
 - *I do not offer compensation or refunds for "unwanted" purchases.*
 - *You bought from me, by doing so, you accept all responsibility purchasing from me.*
 - Exceptions to this are auctions where bids begin to grow into the hundreds, I will request verification that you are confident in your final purchase **twice**.
 - Once upon acceptance of you being the final bidder, twice prior to sending any form of payment information.
 - **Ensure you have funds and are confident purchasing from me prior to buying.**
 - *If I receive any kind of chargeback or informed of any type of force refund being issued, I will bar you from receiving any designs from me in the future and inform the public about you.*

Commissions

➤ **I do not have specific deadlines**

- *Don't commission me if you want artwork completed on a deadline, unfortunately I work on multiple things and can't always be at the computer. These may take two months for me to complete **at most**.*

- I also may work out of the queue depending on motivation, I only take commissions I feel I will enjoy working with your character and can bring out their true potential.
- I typically intend on completing commissioned works within 1-2 months, if not sooner. I've been working to get my queue cleared far faster recently.

➤ **Ask me for things!**

- *If you have any questions or want something changed, ask me! I am more than happy to provide you work in progresses, rough time-frames if motivated and updated information on queue or progress placement!*

- I love answering questions and I have no issue changing things if you're not happy with the progress or process. You are a PAYING client, this is very important to me!
- **Typically, I will not start any commission before payment is received.**
 - I may have exclusions to this rule if I specifically request such or feel I may be unable to work around a particular species.
 - If you notice I have not worked with a particular species, you may ask, however this is **not** a set guarantee.
 - I am incredibly open to experimenting with drawing new species and would love to be offered different species to draw and work around, don't be scared to ask :) !!! I always refer to IRL imagery as well as the drawn reference.

Commercial Rights

- **You may use my designs for commercial use, no charge.**
 - I want people to be HAPPY with my designs, do what you want! Make or commission PNGtubers/VTubers, be chill and enjoy! Make plushies and sell them, I don't care! Just give me credit for the design, that's all I ask.
 - Exceptions to this are if the designs INCLUDE things that CAN be used for commercial usage, like PNGtubers but I'm likely to not make many of these.
- **You may use my artwork for commercial use if properly negotiated**
 - This is the sole exception for commercial use rights, if you purchase a piece of work for me and intend on using it for streams or so on, I need a certain price before usage.
 - This is due to the artwork being purchased for stream usage, these can include things like pagedolls, PNGTubers, etc.,
 - I'd like to request artwork pieces made originally for non-commercial use not be used for commercial usage/negotiation, as that was the intention upon original purchase.
 - However, I am more than welcome to negotiate a small discount if you have purchased artworks DIRECTLY from me and wish to have a commercial piece made.

Bases

- **You may use solely for personal purpose**
 - Do not use it for commission work, regardless of if you received a base of mine for free or by purchasing one.
 - Do not redistribute or sell my bases.
 - You may purchase bases for another user, please specify usernames or notify me ahead of time so I am aware!
- **Ensure to properly credit my work**
 - Regardless of you posting any adoptables or references on or off-site, please include a link or credit back to the link where the base is posted or to my account!
 - Do not remove my watermark!

- **You may use my bases to create adoptables**
 - You may gift, sell or trade your adoptables once made.

Refunds

- **Typically not discussed but offered if I cannot complete payment**
 - *This only applies to clients who commission me for artwork or custom designs.*
 - *This may be due to an emergency or simply due to not being mentally or physically well enough to complete a commissioned piece.*
 - Depending on the amount completed, you will have a percentage docked off from the refund for any work I have completed.

Refunds are provided on a percent basis;

1. Sketch: 70%
2. Linework: 50%
3. Color: 30%

In strict reference to linework, I may offer to provide you the transparent piece, this way you can complete the coloration yourself or find a colorist to properly finish the piece. This will always be free of charge, regardless of time spent.
