

For use with a Makey-Makey

You can find this project at: <http://bit.ly/4music>

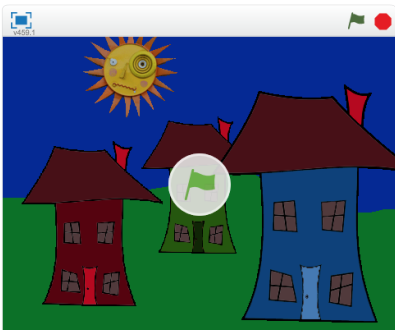

This project uses the [Makey-Makey](#) to control the piano and drum. It's fun to have the kids create their own keyboard using Playdoh or some other items such as bananas. Also, examples of dancing using the changing costume feature.

For use with the Picoboard

You can find this project using: <http://bit.ly/45House>

Using the [Picoboard](#), this app turns from day-night when the light sensor is activated. It also flashes lightning and thunder when the button is pressed. You could also incorporate the slider for maybe rain or something else. There are also the A, B, C, and D ports to do other things with as well.

Using the [Scratch Education Cards](#)

- [Race to the Finish Cards](#)
- [Animate your Name Cards](#)
