EMAIL STATEMENT (6.14.20)

Subject: In Support of Dr. Brown's Open Letter

We're with Dr. Brown.

[Dr. Brown's open letter](#) (June 12, 2020) must be taken seriously: racism in our field is as real and urgent today as it has always been. SEM and ethnomusicology can only claim to represent us if racism, anti-Blackness, and white supremacy are acknowledged and confronted head-on. In this moment we must first look at ourselves and ask, "In what way have I contributed to this problem?" Next, we must ask, "What can I do to make things better and to be part of the solution in my family, my community, my workplace, and my research?" Then, we must end our silence and cast off apathy, move past critique, and take concrete actions to effect real change.

To this end, we emphasize Dr. Brown's critique, which is that SEM,

...whose predominantly white members by and large research people of color, is and can be nothing other than a colonialist and imperialist enterprise... No matter how hard we try to convince ourselves otherwise, until ethnomusicology as a field is dismantled or significantly restructured, so that epistemic violence against BIPOC is not normalized, Black lives do not matter.

To hear and respond meaningfully to Dr. Brown's critique requires long-term, steady work and concrete plans developed *together*.

By signing our names below, we commit to the ongoing work of dismantling white supremacy, to a radical restructuring of our field, and to be held accountable to one another when we fall short. A statement alone is not enough and no list of supporters is exhaustive, but rather provides a public commitment to doing the work and to developing tangible steps towards reform. This living document is only the beginning and will be followed by calls to action.
