

3DFURRYART - PRICING

Last updated on 6 July 2019

Prices and commission availability are subject to changes.
You are required to read our [TOS](#) before commissioning us.

The price listed below are for a character with the standard anthropomorphic shape (one head, two arms, two legs and a tail if applicable). There will be an additional fee for characters that deviate from this standard, depending on the complexity of the modelling and printing.

Same goes with painting: if your character has a fur pattern and colors that we deem to be too complicated, we'll have to ask for a supplement because it will take longer to paint. For example, tiger stripes or leopard spots will incur an added fee. Rainbowy sparkledogs will incur an even greater fee.

Any added fee will be determined by us on a case by case basis. We will inform you beforehand and only send an invoice if you agree with the total fee for the commission.

Small details may have to be simplified or omitted on your character because of the size of the print. Please check with us first if you're unsure or if there are details that must be on the print. We'll do our best to accommodate you. You can reach us by email at 3dfurryart@gmail.com.

Everything will be printed in PLA White by default, you can request another color for free for any unpainted commissions, whether they are custom or generic.

CUSTOM PRINTS:

Every custom commission can have one (1) small accessory, like a collar or a small jewel or piercing, for free. Accessories beyond the first one will incur an additional fee depending on the number of accessories and their complexity to render, print and paint afterwards, if applicable. Big and/or complex accessories like anime swords and the like will also incur a fee, even if they're the only accessory requested.
