3.3.4 Error Prevention (Legal, Financial, Data)

(Level <mark>A</mark>)

For [Web pages](#) that cause [legal commitments](#) or financial transactions for the user to occur, that modify or delete [user-controllable](#) data in data storage systems, or that submit user test responses, at least one of the following is true:

- **Reversible**: Submissions are reversible.
- **Checked**: Data entered by the user is checked for input errors and the user is provided an opportunity to correct them.
- **Confirmed:** A mechanism is available for reviewing, confirming, and correcting information before finalizing the submission.

3.3.X Error Correction (Processes)

(Level <mark>AA</mark>)

For processes which require the user to submit information, all the following are true:

- A mechanism is available for reviewing, confirming, and correcting information before finalizing the submission, unless the information cannot be modified for logical, security, or privacy reasons.
- A warning is provided if information entered and edited by the user invalidates other previously entered information.

3.3.6 Error Prevention (All)

(Level AAA)

For [Web pages](#) that require the user to submit information, at least one of the following is true:

- **Reversible:** Submissions are reversible.
- **Checked**: Data entered by the user is checked for input errors and the user is provided an opportunity to correct them.
- **Confirmed**: A mechanism is available for reviewing, confirming, and correcting information before finalizing the submission.
