

Fundamentals of Computing Technical Difficulties Assignment

If OHS is down, then you may not be able to access everything in the course. Here's what you should do:

1. Try to access CodeHS without going through OHS. If you can access it, then continue working in there.
2. If there is no access to CodeHS, then complete the following:
 - a. Look up 3 of your favorite or most-used games or programs. Write a brief description of each, and tell what the history of the program is. Tell why you chose that program, who developed it, when it started, etc.
 - b. Search "famous programmers." Select any 3 of the programmers you find, and then write a very brief biography of them, being sure to tell why they are famous or influential.
 - c. Email me your completed assignment.
