Out in Science, Technology, Engineering, and Mathematics @ the University of Colorado, Boulder is a 501(c)(3) non-profit professional society focused on LGBTQ people in the STEM community. oSTEM at the University of Colorado Boulder (formerly Student Alliance of GLBT Engineers or SAGE) provides networking opportunities, professional development, social events, and safe space for the LGBTQ+ CU Boulder community in Science, Technology, Engineering, and Math (STEM) fields. We are a chapter of the national organization oSTEM Inc. and are housed in the BOLD Center in the College of Engineering and Applied Science. We are also a Registered Student Organization (RSO) with the Center for Student Involvement on campus.

The Organization

Out in Science, Technology, Engineering, and Mathematics (oSTEM), Inc. is a 501(c)(3) non-profit professional association for LGBTQ+ people in the STEM community. With almost 90 student chapters at colleges/universities and professional chapters in cities across the United States and abroad, oSTEM is the largest chapter-based organization focused on LGBTQ+ people in STEM. We envision a world where LGBTQ+ people in the STEM community are empowered to achieve success in a safe and supportive environment that celebrates their diversity and unique contributions. oSTEM empowers LGBTQ+ people in STEM to succeed personally, academically, and professionally by cultivating environments and communities that nurture innovation, leadership, and advocacy.
