CASE HISTORY

On Monday, September 17, 2001, a man is found dead in a motel room in Amanda Park, Washington. He had hanged himself on the coat rack. He was I am looking to speak to someone about tours for Sea Cadets. I am the Executive/Training Officer for 351 Llewellyn Sea Cadets in Chester, NS. We are trying to teach our cadets about all the marine opportunities in Nova Scotia (and beyond) upon their graduation, and show them as many different vessels as possible this year.

Please let me know if this is something that would be possible. After checking the vessel map, I noticed the Burin Sea might be a viable option if it is moored for continued time.

Thank you so much for your time. Looking forward to speaking with you!

Three days previously (Friday, September 14, 2001), the man checks in using the name "Lyle Stevik", and the address "1019 S Progress Ave, Meridian, Idaho". The motel manager describes the man as having a "slight Canadian accent"; she thinks he might have a backpack, but isn't sure. He arrives at the same time as buses stop outside the motel, but nobody is certain how Lyle traveled there. He is given the key to room 8, but returns an hour later to complain about noise from a nearby trailer park. The motel clerk describes Lyle as giving off "bad vibes", being "spaced", and making her feel nervous. He is given the key to room 5.

On Saturday 15 September, 2001, Lyle is noticed "pacing" up and down the highway. He is also seen by "several people" on the porch outside room 5. On Sunday, 16 September, 2001, the motel maid offers to

clean his room; Lyle declines, but asks for additional towels. On Monday 16 September, 2001, Lyle is

due to check out of his room. The maid finds his body and calls the motel owner. Police arrive.

Lyle leaves \$160 in \$20 bills in a hotel comment card, with "FOR THE ROOM" written on the front. In the

bin, there is a copy of the previous day's Daily World Sunday newspaper, an empty Pepsi cup, and a

note with the word "SUICIDE" written across. Other items that are found in the room include a

toothbrush, toothpaste, coffee cup, and \$2.40 in spare change. In Lyle's pocket is \$8 in dollar bills and a

pen.

The address Lyle gives on check-in belongs to the Best Western Rama Inn in Meridian, Idaho. Hotel

employees do not recognize the John Doe.

DEBUNKED THEORIES

Eating Disorder: Many posters, including /u/sewer_mermaid, pointed out numerous traits and effects of bulimia that did not correlate with the condition of his teeth or the marks on his hands.

9/11: Completed isotope results in 2016 showed that he had not been in New York in the 1-2 months before his death, and had been traveling/living in the Southern US during that period.

He is from Canada: Largely discounted. Isotope results showed that he grew up in the US, traveling frequently throughout his childhood. Where he was born is still unknown, making this still possible.
