

Hello!

Here are the things we check before adding links to our posts on Noupe. It'd be awesome if you could read these through to save us both time. :)

- **We don't sell links or guest posts.** If you'd like a link from [Noupe](#), we expect you to link back to a [Jotform](#) page of our choosing. Your link will be permanent and do-follow.
- We link to **DR 10+** websites.
- We **cannot** add a link to (and won't accept links from) websites related to **gambling, CBD, betting, cryptocurrency, local services** (e.g. "SEO agency in Arkham"), **essay writing services, hiring developers**, or any gray service like **selling followers**, etc.
- **No** anchors with **"services"**, **"hire"**, **"agency"**, or **"company"** in them.
- We **don't link to homepages**, we prefer informative blog posts. (homepages are OK in listicles)
- We can link to a page **only** if it's related and adds value to the article.
- We **can't link to our competitors**, including:
  - Form builders, survey makers, quiz/test makers
  - AI chatbots, AI agents
  - No code app builders
  - QR code generators
  - E-signature solutions
  - PDF editors/smart PDF software
- No further modifications will be made to these posts:

For our link requests:

- We prefer links from relevant **DR 20+** websites with non-zero traffic. No syndicate sites, UGC sites, news sites, or directories.
- If you don't have a website you can add links to, you can add our links to your upcoming guest post drafts if you specify the website first.
