INTRODUCTION

Introduction typed in capital letters [Cambria Regular font size 11] contains the background of overcoming a problem, urgency and rationalization of activities, literature review, problem-solving plan, activity objectives, and hypothesis development [Cambria Regular font size 11, Regular] Note for Author: The length of the article is between 2000-5000 words (including literature, notes, and tables). Articles are typed in the Microsoft Office Word format. Using Cambria Regular font size 11, single space on A4 paper [Cambria Regular font size 11].

METHODS

The research method explains the implementation methods employed in the study. The method is described clearly and in detail [Cambria Regular font size 11].

RESULTS AND DISCUSSION

Explain the results of the research in the form of problem-solving analyzed using relevant theories. The results of the study also revealed the findings of the research. Discussion is accompanied by logical arguments by linking the results of research with theory, the results of other studies.

CONCLUSION AND SUGGESTION

Conclusions contain a summary of the results of the research and discussion. Conclusions are research findings in the form of answers to the formulation of research problems or research objectives and research hypotheses. Conclusions are explained briefly and clearly. The suggestion section describes the application or development of science. Conclusions and suggestions do not use points or numbering but are described in one paragraph. [Cambria Regular 11 font size].

ACKNOWLEDGMENT

Describe anyone who directly helps your research such as funders (an institution called non-personal), may be supplemented by the research contract number. Thank you to the intended parties (if any and significant related to the study).

REFERENCES

Contains primary literature sourced from national and international journals, books and secondary sources from credible and accountable internet sources. The reference list is written following the *American Psychological Association (APA) Fifth edition*. All sources listed in the bibliography must be in the article script by using referral applications.
